## LEGAL BASIS/FOUNDATION/PROVISION FOR THE QEBR

**The Quarterly Economic and Budgetary Review Report is Published in accordance with Section 83 of the Public Finance Management Act, 2012. It states as follows:**

**83.** (1) An accounting officer for a national government entity shall prepare a report for each quarter of the financial year in respect of the entity.

(2) In preparing a quarterly report for a national government entity, the accounting officer shall ensure that the report—

(a) Contains information on the financial and non-financial performance of the entity; and

(b) Is in a form that complies with the standards prescribed and published by the Accounting Standards Board from time to time.

(3) Not later than fifteen days after the end of each quarter, the accounting officer shall submit the quarterly report to the Cabinet Secretary responsible for the entity and the National Treasury.

(4) The Cabinet Secretary responsible for an entity shall forward a copy of the report to the Cabinet Secretary and Controller of Budget.

(5) Not later than forty five days after the end of each quarter, the National Treasury shall—

(a) consolidate the quarterly reports and submit them to the National Assembly and a copy of the reports to the Controller of Budget, Auditor-General and the Commission on Revenue Allocation; and

(b) Publish and publicize the reports.

(6) In the case of an entity that is a state corporation, the accounting officer for the corporation shall submit the quarterly report to the Cabinet Secretary responsible for the corporation who shall, upon approving it, forward a copy to the Cabinet Secretary.

**HIGHLIGHTS OF THE QUARTERLY ECONOMIC AND BUDGETARY  
REVIEW: THIRD QUARTER, 2017/2018**

---

**1. Economic growth**

Kenya's economy remained resilient in 2017 growing at 4.9 percent supported by a largely stable macroeconomic environment and increased activities in the non-agricultural sector. As a result, the economy was able to generate 898 thousand new jobs in 2017 up from 833 thousand new jobs in 2016. However, this growth was slower than the 5.9 percent revised growth in 2016 as a result of uncertainty associated with political elections environment coupled with effects of adverse weather conditions.

**2. Stable prices**

The economy continues to register macroeconomic stability with low and stable interest rates and competitive exchange rate to support exports. The overall month on month inflation declined to 4.2 percent (within 5 percent target) in March 2018 from 4.5 percent in February 2018. The decline in inflation was a result of the fall in food prices which outweighed the increase in fuel prices as a result of the rise in international oil prices and an increase in charcoal prices.

**3. Balance of Payments**

The overall balance of payments position was at a deficit of US\$ 118.5 million (0.1 percent of GDP) in the year to January 2018 from a deficit of US\$ 70.2 million (0.1 percent of GDP) in the year to January 2017. The current account balance registered a deficit of US\$ 4,911.8 million (6.1 percent of GDP) in the year to January 2018 compared to a deficit of US\$ 4,228.7 million (5.4 percent of GDP) in the year to January 2017.

**4. Foreign Exchange Reserves**

The banking system's foreign exchange holding remained strong at US\$ 9,680.7 million in January 2018 from US\$ 9,724.1 million in January 2017. The official foreign exchange reserves held by the Central Bank improved to US\$ 7,514.4 million (5.0 months of import cover) in January 2018 compared with US\$ 7,466.2 million (4.9 months of import cover) in January 2017.

**5. Money and Credit**

Broad money supply, M3, grew by 8.0 percent in the year to February 2018 compared to a growth of 5.4 percent in the year to February 2017. The primary source of the growth in M3 was the increase in Net Domestic Assets (NDA) of the banking system, largely reflected in growth of net domestic credit to government. Net foreign assets of the banking sector contracted during the review period.

**6. Capital Markets**

Activities at the stock market remained strong with the NSE 20 Share Index improving to 3,845 points by end- March 2018 from 3,441 points in March 2017 while Market Capitalization improved to KSh. 2,790 billion from KSh. 2,114 billion over the same period.

---

## 7. **Total Revenue Collection**

The National Government cumulative revenue collection including A-I-A for the period July 2017 to March 2018 amounted to KSh. 1,037.2 billion (equivalent to 12.0 per cent of GDP) against a target of KSh. 1,156.6 billion (13.4 per cent of GDP). This represented an underperformance of KSh. 119.3 billion mainly due to shortfalls in VAT, Excise duty, Income Tax, Import Duty, Investment Income and A-I-A collection.

## 8. **Government Expenditure and Net Lending**

The total cumulative expenditure and net lending inclusive of transfers to County governments for the period ending 31st March, 2018 amounted to KSh. 1,441.0 billion. This was KSh. 175.5 billion below the target of KSh. 1,616.5 billion and was largely attributed to low absorption levels in pension and wages and salaries for the National Government. Expenditure by County Government was also below target.

## 9. **Guaranteed Loans**

Between July 2017 and March 2018, the National Government paid a total of KSh. 1,049.29 million on account of guaranteed loans against the projected debt service of KSh. 1,140.85 million.

## 10. **Overall Fiscal Balance**

The cumulative overall fiscal balance, on a commitment basis (excluding grants), amounted to a deficit of KSh. 403.8 billion (equivalent to 4.7 per cent of GDP), as at end-March 2018.

## 11. **External Financing**

Between July 2017 and March 2018, external financing amounted to a net borrowing of KSh. 275.1 billion.

## 12. **Net Domestic Borrowing**

Net domestic financing amounted to a net borrowing of KSh. 125.6 billion (equivalent to 1.45 per cent of GDP) in the period ending 31st March 2018.

## 13. **Domestic Debt**

Total gross domestic debt stock increased by 21.9 per cent from KSh. 1,945.0 billion as at end-March 2017 to KSh. 2,371.7 billion by the end-March 2018.

## 14. **External Debt**

The total external debt stock, including the International Sovereign Bond, stood at KSh. 2,512.4 billion for the period ending March 2018. The debt stock comprised of multilateral debt (33.3 per cent), bilateral debt (31.9 per cent), Suppliers Credit debt (0.7 per cent), and Commercial banks' debt (34.1 per cent- including International Sovereign Bond).

## 1.0 RECENT ECONOMIC DEVELOPMENTS

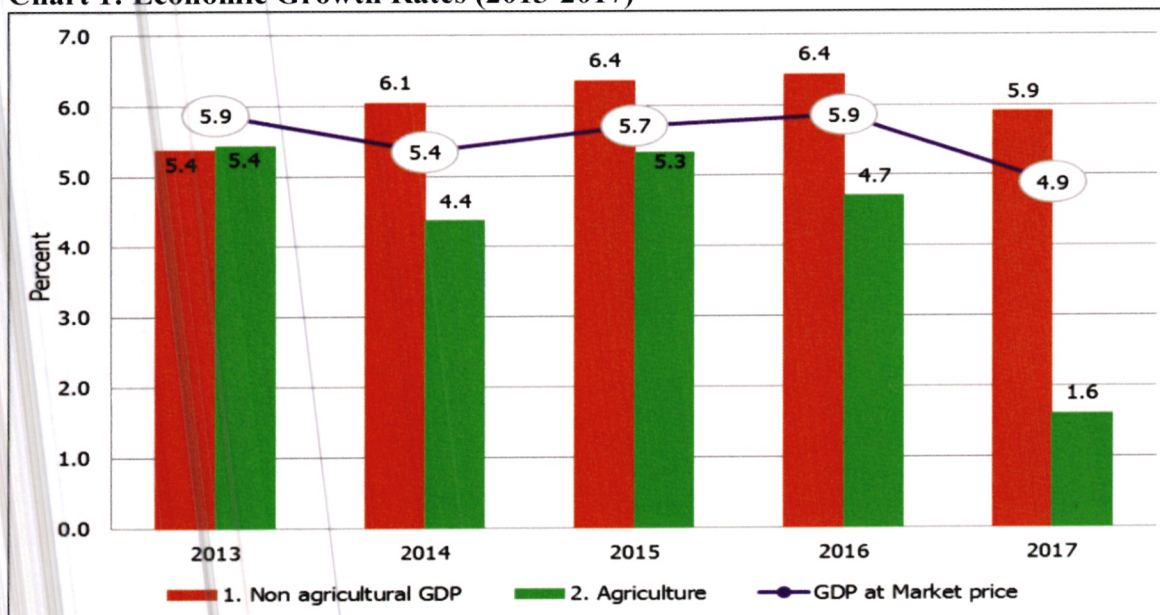

### 1.1 Economic Growth

1. Kenya’s economy remained resilient in 2017 growing at 4.9 percent supported by a largely stable macroeconomic environment and increased activities in the non-agricultural sector. As a result, the economy was able to generate 898 thousand new jobs in 2017 up from 833 thousand new jobs in 2016. However, this growth was slower than the 5.9 percent revised growth in 2016 as a result of uncertainty associated with political elections environment coupled with effects of adverse weather conditions.

2. Agricultural sector slowed down in 2017 to a growth of 1.6 percent compared to a revised growth of 4.7 percent in 2016. The slowed growth was as a result of unfavourable weather conditions that suppressed production of key food products such as maize, some vegetables, tea and coffee and adversely affected production in the livestock sub-sector. However, despite the general underperformance of the sector, production of food crops such as potatoes, beans and some cereals posted relatively improved performance and somehow mitigated the impact of the decline in the production of the other crops, thereby anchoring the growth in 2017 (**Chart 1**). The contribution of Agricultural sector to overall GDP growth was at 0.4 percentage points in 2017 from 1.0 percentage points in 2016.

3. The Non-agricultural sector (service and industry) remained vibrant despite the subdued performance in 2017. The sector grew by 5.9 percent in 2017 compared to a growth of 6.4 percent in 2016. It has the largest percentage points to real GDP growth at 3.9 percentage points mainly supported by the service sector.

**Chart 1: Economic Growth Rates (2013-2017)**

4. Services remain the main source of growth. It grew by 6.2 percent in 2017 compared to a growth of 6.5 percent in 2016. The service sector was supported by improved growth in accommodation and restaurant (14.7 percent), information and communication technology (11.0 percent), wholesale and retail trade (5.7 percent) and

public administration (5.3 percent) (**Table 1**). Transportation and storage sector remained vibrant in 2017 despite its growth slowing to 7.3 percent compared to a 7.8 percent growth in 2016. The slower growth was mainly on account of a significant rise in prices of petroleum products.

5. The slowdown of service sector in 2017 was mainly reflected in the subdued performance of the financial and insurance sector mainly on account of significantly constrained growth in financial activities, despite better performance in insurance activities. The sector slowed to a growth of 3.1 percent in 2017 compared to a growth of 6.7 percent in 2016.

6. Services contributed 3.1 percentage points to real GDP growth in 2017 largely supported by the Real Estate (0.5 percentage points) and Transport and Storage (0.5 percentage points) and Information and communication (0.4 percentage points).

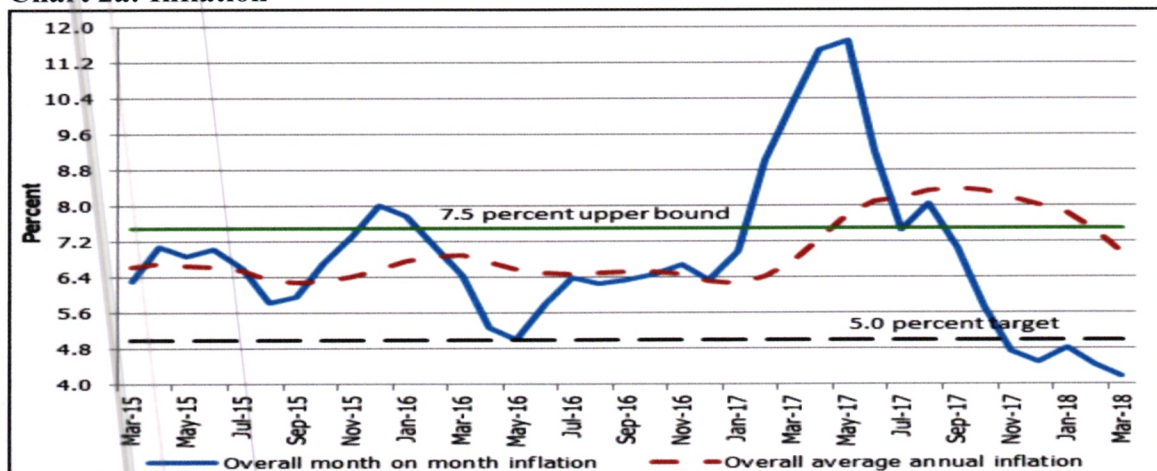

7. The performance of Industry slowed to a growth of 3.4 percent in 2017 compared to a growth of 5.5 percent in 2016 following subdued performance of manufacturing (0.2 percent) and electricity and water supply (5.6 percent) and construction (8.6 percent). The slow growth in the sector was partly attributed to the extended electioneering period, prompting investors to scale down construction activities. It, however, accounted for 0.6 percentage points to growth largely driven by the Construction Sector which contributed 0.5 percentage points.

## RECENT ECONOMIC DEVELOPMENTS

### 1.2 Inflation

8. Month-on-month overall inflation fell to 4.2 percent in March 2018 from 4.5 percent in February 2018, thereby remaining within the 5.0 percent medium term target set by Government (**Chart 2a**). This decline reflected lower food prices particularly for Irish potatoes, cabbages, and sugar. The decrease in food prices outweighed the increase in fuel prices as a result of the rise in international oil prices and an increase in charcoal prices. In the twelve month to March 2018, the average annual inflation rate was 6.9 percent compared to 6.7 percent in the same period in 2017.

9. Kenya's rate of inflation compares favorably with the rest of sub-Saharan African countries and especially its peers such as Nigeria and Ghana whose inflation rates were 13.3 percent and 10.4 percent, respectively in March 2018 (**Chart 2b**).

## RECENT ECONOMIC DEVELOPMENTS

### 1.3 Balance of Payments

10. The overall balance of payments position was at a deficit of US\$ 118.5 million (0.1 percent of GDP) in the year to January 2018 from a deficit of US\$ 70.2 million (0.1 percent of GDP) in the year to January 2017 (**Chart 3**). This was due to the widening current account deficit that more than offset the improvement in the capital and financial account.

11. The current account balance registered a deficit of US\$ 4,911.8 million (6.1 percent of GDP) in the year to January 2018 compared to a deficit of US\$ 4,228.7 million (5.4 percent of GDP) in the year to January 2017. This reflects the widening of the trade account balance and the increased payments to foreign investors (due to high interest payments) despite an improvement in the secondary income account balance particularly increased workers' remittances.

**Chart 3: Balance of Payments (Per cent of GDP)**

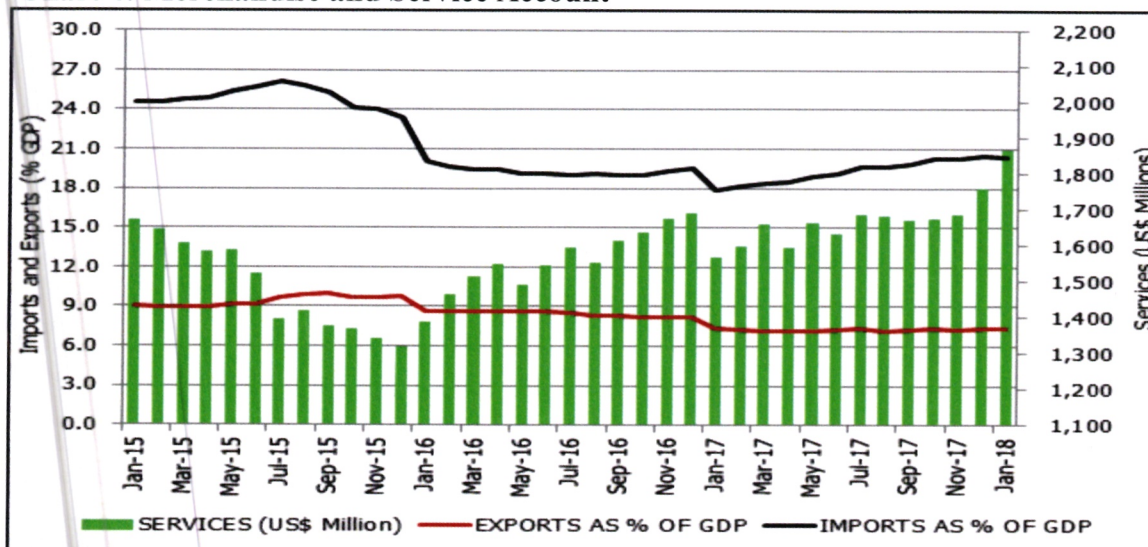

Source: National Treasury Data: Central Bank of Kenya

12. The deficit in the merchandise account widened by US\$ 2,133.7 million to US\$ 10,427.3 million in the year to January 2018 reflecting increase in payments for import of oil on account of the rebound in international oil prices and the increase in imports of machinery and transport equipment mostly on account of imports of wagons, locomotives and associated equipment related to the Standard Gauge Railway (SGR) project (**Chart 4**). Net services recorded a 19.1 percent increase in the year to January 2018 on account of higher inflows from transport and other services.

13. Flows in the Financial Account increased to US\$ 4,840.1 million in January 2018 compared with US\$ 4,257.5 million in January 2017, with the surplus reflecting higher liabilities compared to assets. The financial inflows were mainly in the form of Foreign Direct Investments and other investments which stood at US\$ 363.1 million and US\$ 5,422.3 million, respectively in January 2018. Other investment inflows mainly include foreign financing for Government infrastructure projects.

### 1.4 Foreign Exchange Reserves

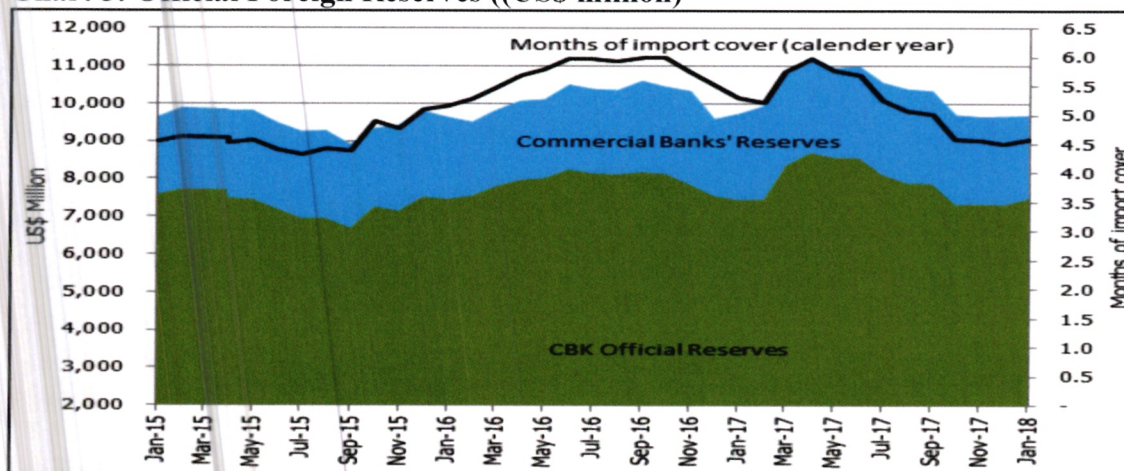

14. The banking system's foreign exchange holding remained strong at US\$ 9,680.7 million in January 2018 from US\$ 9,724.1 million in January 2017 (Table 2a and Chart 5). The official foreign exchange reserves held by the Central Bank improved to US\$ 7,514.4 million (5.0 months of import cover) in January 2018 compared with US\$ 7,466.2 million (4.9 months of import cover) in January 2017 while commercial banks holdings was at US\$ 2,166.2 million in 2018 from US\$ 2,257.9 million in 2017.

RECENT ECONOMIC DEVELOPMENTS

1.5 Exchange Rates

15. The Kenya Shilling exchange rate remained broadly stable and competitive against major international currencies. Against the dollar, the exchange rate has been relatively less volatile exchanging at KSh. 101.2 in March 2018 from KSh. 102.8 in March 2017. Against the Euro and the Sterling pound, the Shilling weakened to KSh. 124.7 and KSh. 141.2 in March 2018 from KSh. 110.0 and KSh. 126.9 in March 2017, respectively (Chart 6a).

Chart 6a: Kenya Shilling Exchange Rate

Source: National Treasury, Data: Central Bank of Kenya

16. The Kenya Shilling exchange rate as compared to most Sub-Saharan African currencies, has continued to display relatively less volatility (Chart 6b). This stability reflected resilient export receipts from tea and horticulture despite lower export volumes due to adverse weather conditions in the first quarter of 2017. Additionally, receipts from tourism, coffee exports and Diaspora remittances remained strong.

## RECENT ECONOMIC DEVELOPMENTS

### 1.6 Money and Credit

17. Broad money supply, M3, grew by 8.0 percent in the year to February 2018 compared to a growth of 5.4 percent in the year to February 2017 (**Table 2b**). This growth is reflected in the improvement in the growth of time and saving deposits. Growth in foreign currency deposits, demand deposits and other deposits at the Central Bank decreased in the year to February 2018.

18. The primary source of the growth in M3 in the year to February 2018 was the increase in net domestic assets (NDA) of the banking system, largely reflected in growth of net domestic credit to government. Net foreign assets of the banking sector contracted during the review period.

19. Net Foreign Assets (NFA) of the banking system in the year to February 2018 contracted by 3.2 percent from a growth of 16.6 percent over a similar period in 2017 (**Chart 7**). The decline is attributed to an increase in banks' nonresident deposit liabilities and external loans. The net foreign assets of the Central Bank increased during the period due to a pick-up in foreign exchange reserves.

Chart 7: Growth in Money Supply and Its Sources

Source: National Treasury, Data: Central Bank of Kenya

20. Meanwhile, the Net Domestic Assets (NDA) improved to a growth of 10.7 percent in the year to February 2018 from the growth of 3.0 percent over a similar period in 2017. The pickup in growth in 2017 is due to an improvement in the growth of net domestic credit. Domestic credit improved to an annual growth of KSh. 241.4 billion (8.1 percent) in the year to February 2018 compared to a growth of KSh. 135.3 billion (4.8 percent) in the year to February 2017. The improvement reflects increased lending mainly to the Government.

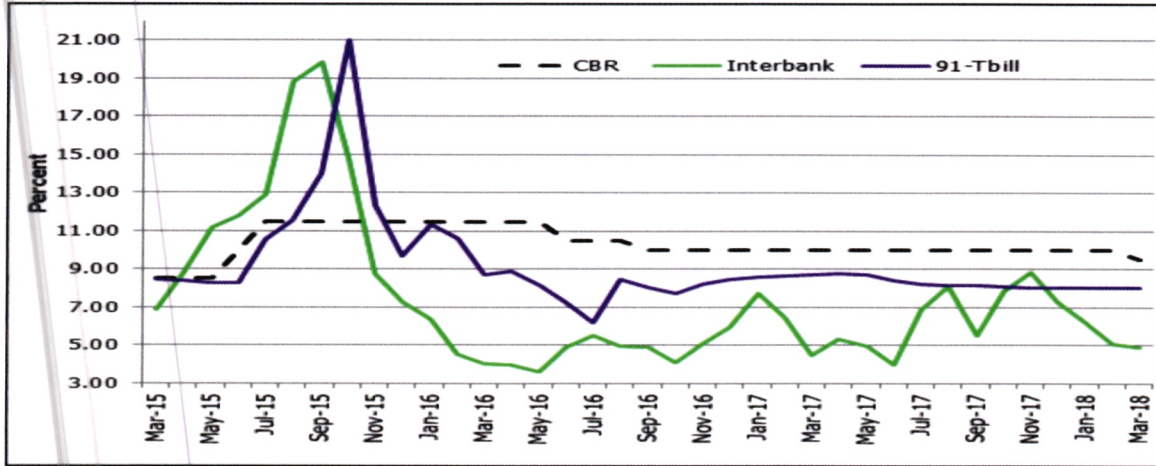

21. Annual growth of credit to the private sector grew by 2.1 percent in the year to February 2018, slightly lower than the 3.5 percent growth in February 2017. The slowdown in credit growth was largely due to substantial loan repayments in the transport and communication sector. Nevertheless, lending to the manufacturing, real estate, and trade sectors remained relatively strong, growing by 13.1 percent, 8.3 percent, and 5.9 percent, respectively.

### 1.7 Interest Rates

22. Short term interest rates have remained fairly low and stable. The Central Bank Rate was reduced to 9.5 percent in March 2018 from 10.0 percent in order to support economic activity. The interbank rate remained low at 4.9 percent in March 2018 from 4.5 percent in March 2017 due to ample liquidity in the money market (**Chart 8a**). The 91-day Treasury bill rate declined to 8.0 percent in March 2018 compared to 8.7 percent in March 2017 while over the same period, the 182 day and the 364 day Treasury bills averaged 10.4 percent and 11.1 percent from 10.5 percent and 10.9 percent, respectively.

23. The interest rate spread narrowed to 5.4 percent in December 2017 from 6.4 percent in December 2016 with the Commercial banks’ average lending interest declining to 13.6 percent from 13.7 percent over the same period. Meanwhile, the average commercial banks’ deposit rate increased to 8.2 percent in December 2017 from 7.3 percent in December 2016. As per the Banking (Amendment) Act 2016, the lending rates are expected to decline further to below 13.5 percent due to the reduction of the Central Bank rate to 9.5 percent.

## 2.0 FISCAL DEVELOPMENTS

### 2.1 Revenue

25. By the end of March 2018, total cumulative revenue including A-I-A collected amounted to KSh. 1,037.2 billion against a target of KSh. 1,156.6 (**Table 3 and Chart 10**). This performance was below the target by KSh. 119.3 billion. Ordinary revenue collection was KSh. 975.4 billion against a target of KSh. 1,040.6 billion an under performance of KSh. 65.2 billion. The Railway Development Levy collection amounted to KSh. 15.6 billion against a target of KSh. 15.7 billion. Cumulative ministerial A-I-A recorded an under performance of KSh. 54.2 billion for the period under review, reflecting under reporting by the ministries in their expenditure return for the period under review. However, compared to the last FY., the Revenue collection increased by 5.3 per cent.

## 2.2 Expenditure

27. The total expenditure and net lending for the period under review amounted to KSh. 1,441.0 billion, against a target of KSh. 1,616.5 billion. The shortfall of KSh. 175.5 billion was attributed to lower absorption recorded in both recurrent and development expenditures by the National Government and County Governments. (**Table 4 and Chart 11**). Recurrent expenditure for National Government amounted to KSh. 913.3 billion (excl. KSh. 27.8 billion for Parliament and Judiciary), against a target of KSh. 901.0 billion, with underperformance mainly recorded in wages and salaries, pension and A-I-A which accounted for KSh. 27.7 billion, KSh. 14.3 billion and KSh. 40.2 billion respectively.

28. Foreign interest payments amounted to KSh. 54.6 billion, compared to KSh. 38.2 billion in the same period of the FY 2016/17. The domestic interest payments totalled KSh. 164.6 billion, which was higher than KSh. 145.8 billion paid in the corresponding period of the previous financial year and also higher than the target of KSh. 128.1 billion.

29. The total cumulative ministerial and other public agencies expenditure was KSh. 990.5 billion against a target of KSh. 1,254.1 billion (**Table 5**). Recurrent expenditure was KSh. 768.9 billion against a target of KSh. 790.5 billion, while development expenditure was KSh. 311.6 billion against a target of KSh. 463.6 billion. The percentage of total expenditures to the target was 79.0 per cent, while the percentage of total expenditures to

the target for recurrent and development were 85.9 per cent and 67.2 per cent respectively, as at the end of the period under review. Out of the Total expenditure recurrent was 68.5 per cent and Development was 31.5 Per cent. As indicated earlier, the discrepancy between actual and target expenditures partly reflect the non-capture of the sub-National expenditures and hence under reporting by Ministries. These ministerial expenditures are therefore, provisional.

30. As at the end of 31st March, 2018, expenditures by the Ministry of Education, Science and Technology; Teachers Service Commission and Ministry of Health (Social Sector) accounted for 38.9 per cent of total recurrent expenditure. While the State Department for Interior, and Ministry of Defence accounted for 10.5 per cent and 9.9 per cent respectively.

31. Analysis of development outlay indicates that the Ministry of Energy and Petroleum accounted for the largest share of the total development expenditures (16.9 per cent), followed by the Department for Infrastructure (15.6 per cent), Department of Transport (11.3 per cent) and the State Department for Planning and Statistics (7.3 per cent). The development expenditures in large ministries were below the target because of non-inclusion of expenditures from some donor funded projects.

### 2.3 Fiscal Outturn

33. Between July 1, 2017 and March 31, 2018, cumulative overall fiscal balance (on a commitment basis and excluding grants), amounted to KSh. 403.8 billion (equivalent to 4.7 per cent of GDP) against a targeted deficit of KSh. 459.9 billion (equivalent to 5.3 per cent of GDP) (**Chart 12 and Table 7**). Over the same period in 2017, the fiscal deficit stood at KSh. 507.4 billion (equivalent to 6.6 per cent of GDP). Including grants, the fiscal balance (on a commitment basis) deficit stood at 4.5 per cent of GDP against a targeted deficit of 4.8 per cent of GDP. The Fiscal Outturns for the past years is provided as **Annex I**.

34. The Government is planning to begin presenting its fiscal accounts in Government Finance Statistics Manual 2014 (GFSM 2014) format moving forward from the current GFSM 1986 format. GFSM 2014 is the latest standard for analysis, presentation of government fiscal accounts. Going forward our analysis of fiscal performance will be based on the GFSM 2014 presentation. In this edition of QEBR, we have attached the key GFS standard tables for public to note. Annex II to VI is a presentation of the Budget outturn using the GFSM 2014, for the budget 2017/18 and the first quarter 2017/18 actual.
