CLERK-AT THE-TABLE:	<i>Moses Lemura</i>

**THE CONSOLIDATED
NATIONAL GOVERNMENT
INVESTMENT REPORT FOR
THE YEAR 2017/2018**

PREFACE

This is the 2017/2018FY edition of the *Consolidated National Government Investment Report*, published in compliance with Section 89 of the Public Financial Management Act, 2012. The Report, which the PFM Act requires the National Treasury to submit to Parliament, gives a comprehensive status of public (national government) investments for the period 2017/2018 FY. These investments are primarily in state corporations and government linked corporations. To date, the National Treasury has submitted the 2013/2014FY, 2014/2015FY, 2015/2016FY, and 2016/2017FY reports.

As in the earlier editions, the 2017/2018FY edition provides information of national government participation in state corporations and government linked corporations in four (4) main areas, namely (i) shareholding/equity and funding; (ii) grants and subsidies; (iii) loans and guarantees; and (iv) revenue receipts.

During the 2017/2018FY, a total of Kshs. 542,591 million of revenues was generated from internal sources, and GoK transfers in form of grants/subsidies amounting to Kshs. 348,930 million were disbursed, comprising recurrent and development grants of **Kshs. 180,513 million** and **Kshs.168,417 million**, respectively – a 14% reduction from the previous financial year. It is noteworthy that during the year, there was a 10% growth in profits and surpluses to Kshs. 84,860 million. In the same period, the shareholding (nominal) increased by 53% to Kshs.34,503 million, with a moderate 10% growth in net assets to **Kshs.2,636,299 million**. A total of **Kshs.17,416 million** was received from this investment in form of dividends and directors fees during the year.

Besides investment by way of shareholding, the national government continued to provide resources for investment in hard infrastructure with a view to improving the productive capacity of the nation. During the year, the sector procured a total of **Kshs.48, 655 million** in form of loans, of which the national government disbursed a total of **Kshs. 15,845 million** in form of direct and on-lent loans. The total indebtedness (total liabilities including current liabilities) amounts to **Kshs 1,921,489 million**, of which total un-discharged (outstanding) GoK loans amounted to **Kshs.730,150 million**, an increase of **Kshs.87,207 million**. Of this amount, a total of **Kshs.395, 217 million** relates to Kenya Railways alone. The un-discharged guarantees by GoK, however, decreased by 3% to **Kshs. 103,039 million** following repayment of guaranteed loans by KenGen. That notwithstanding, the contingent liabilities increased by 13.4% to **Kshs.403,569 million**, driven by the infrastructure sub-sector, primarily due to increased exposure in Kenya Airports Authority, Kenya Ports Authority and Kenya Railways.

In order to get full value for our investments, we will continue to promote good corporate governance practices in the sub-sector and ensure that there is sufficient technical capacity to roll out the programmes in an efficient and timely manner, always keeping in mind that our

investments are not an end in themselves but for the effective and efficient service delivery to the Kenyan citizens.

I wish to underscore that we at the National Treasury continuously strive to improve the content and style of reporting in every report to ensure that each is as accurate and informative as possible. This way, Parliament (and other stakeholders) would find the reports useful in the discharge of their mandates. This 2017/2018FY report is no exception and, in fulfillment of that objective, a lot of diligence and data validation has been done.

As I conclude, I wish to thank all the Principal Secretaries as well as Chief Executive Officers of state corporations for facilitating and responding in a timely manner in the information requirements. I also thank the officers at the National Treasury who put in quality time and effort in ensuring that this report was ready within the set timelines.

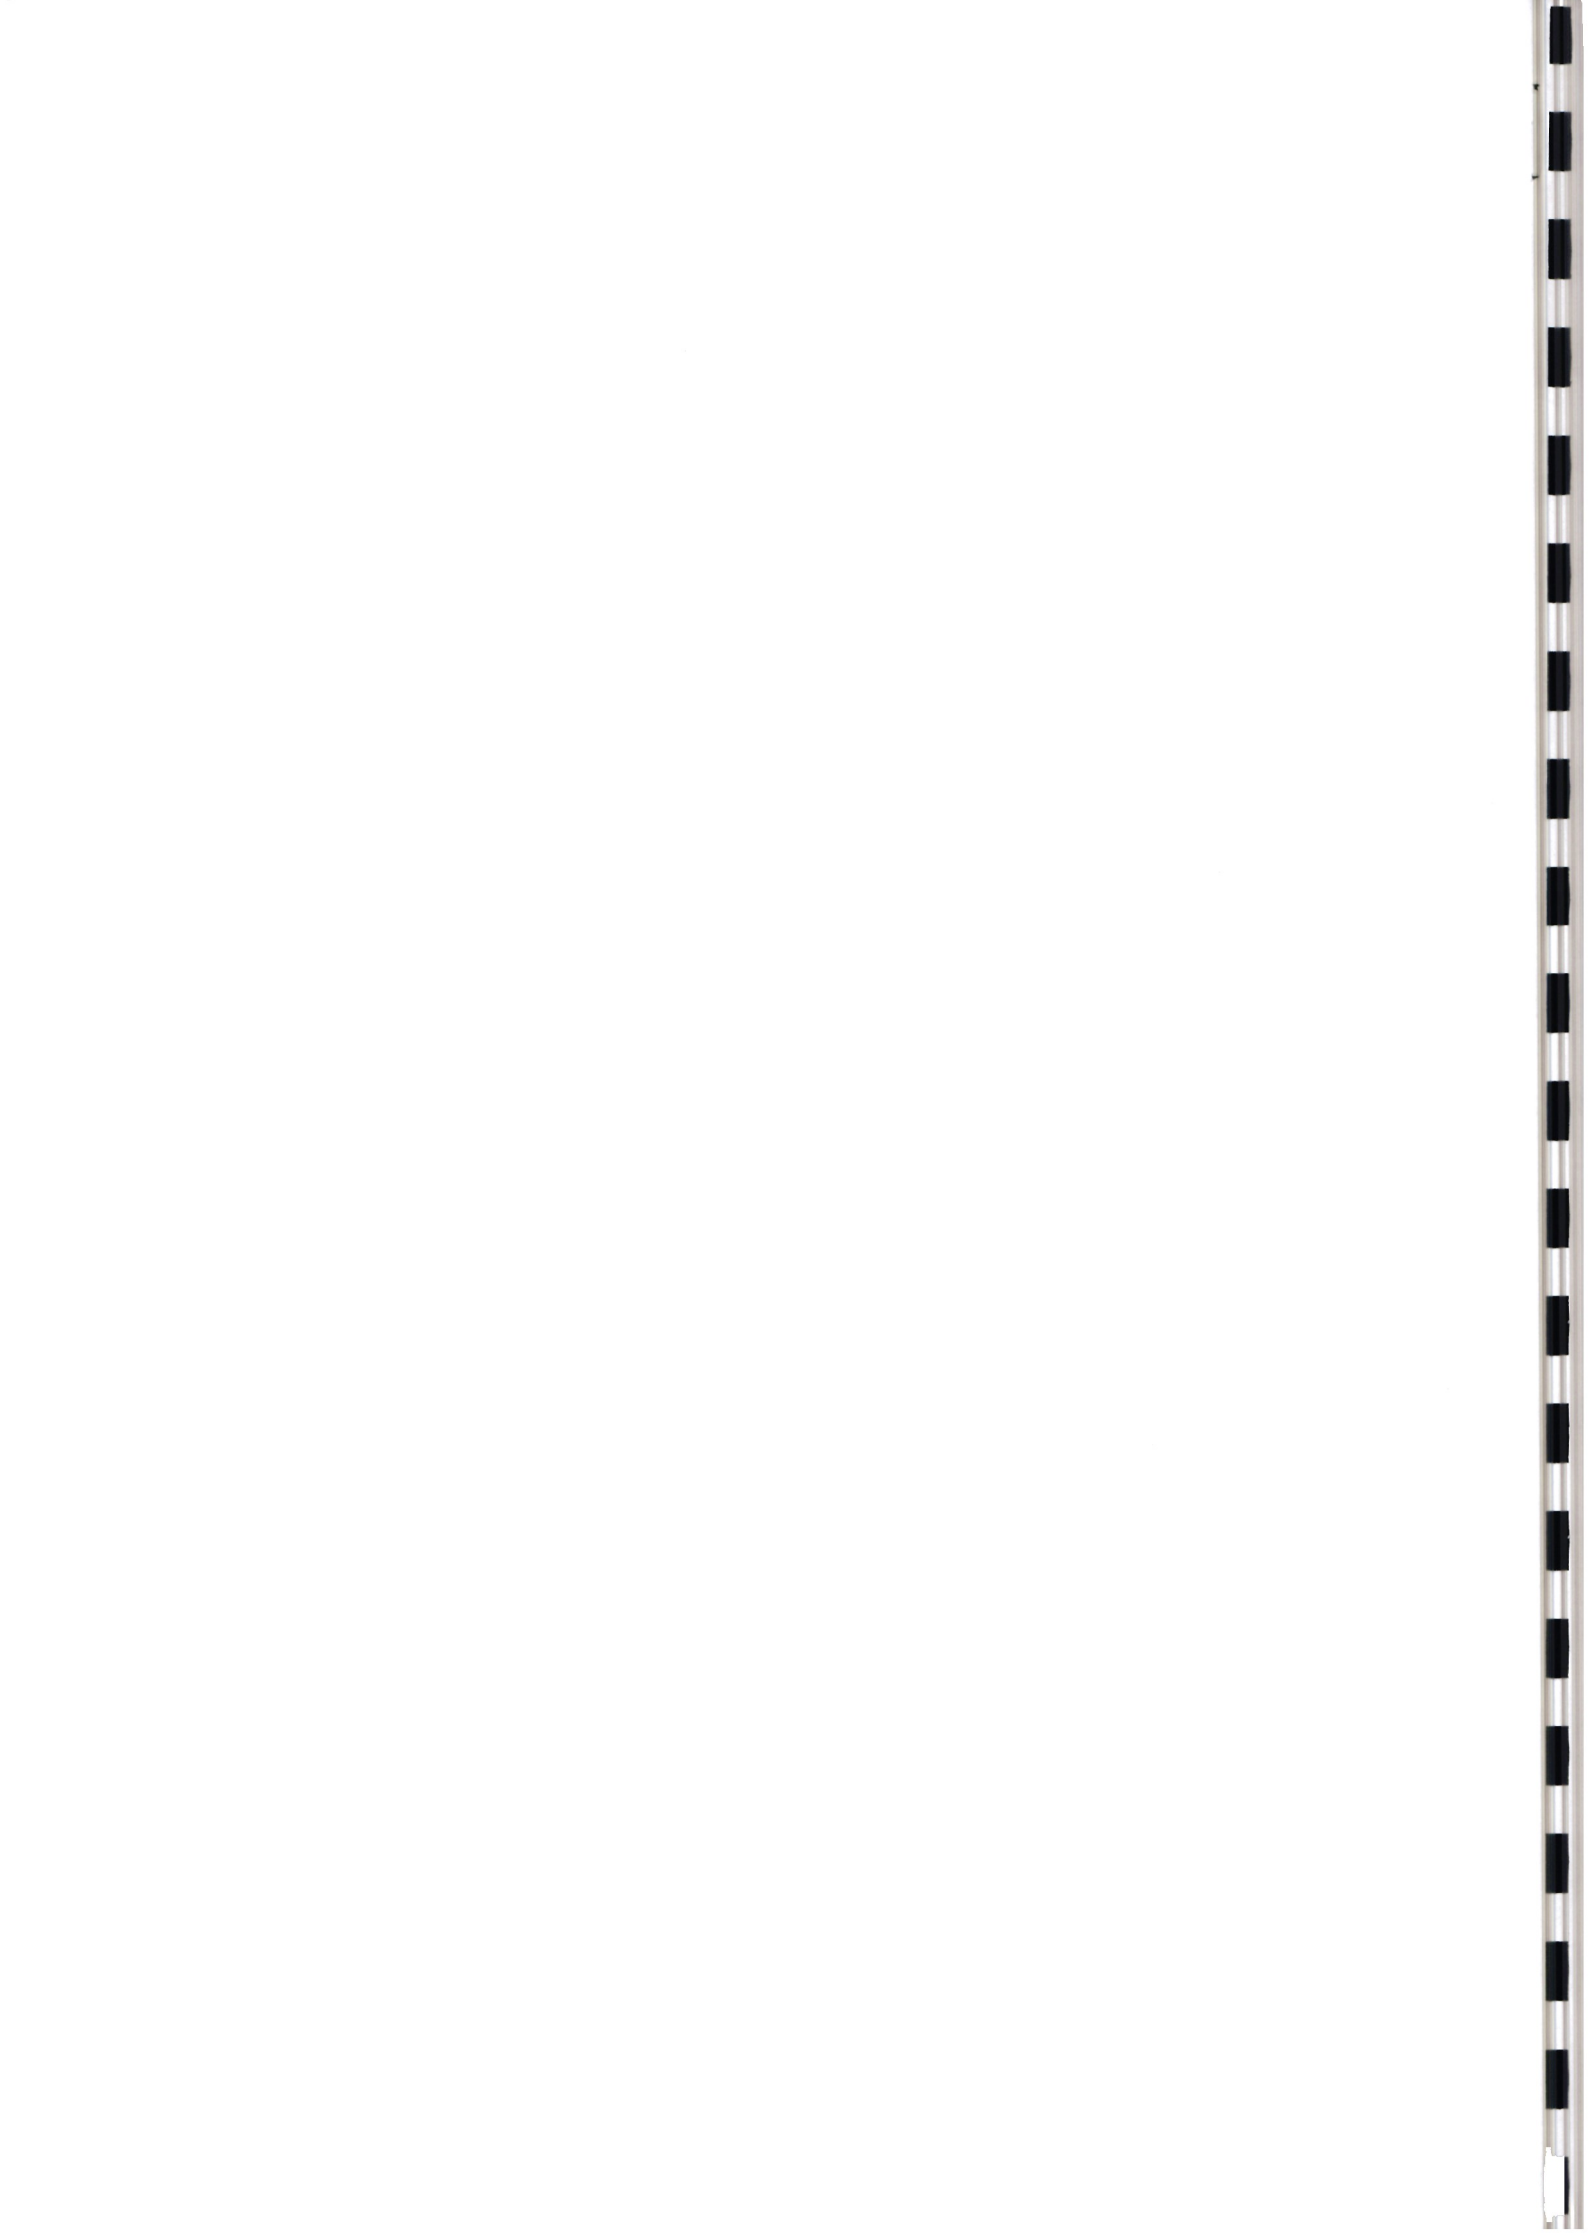

Finally, I caution that these numbers are largely un-audited and, therefore, care should be taken when using or interpreting them.

Thank you.

Henry K. Rotich, EGH
CABINET SECRETARY/NATIONAL TREASURY & PLANNING

Legal Basis for the Consolidated National Government Investment Report

The Consolidated National Government Investment Report is prepared in accordance with Section 89 of the Public Finance Management Act, 2012 which states as follows:

- (1) The Cabinet Secretary responsible for matters relating to public investments shall prepare and submit to the National Assembly, not later than four months after the end of each financial year, a consolidated report summarizing the extent of national government involvement or investment in, or funding of, all state corporations and government-linked corporations for that financial year.
- (2) The report under subsection (1) shall include information on-
 - a) the date of incorporation and objects of the corporation;
 - b) the amount of national government shareholding, directly or indirectly, in the state corporation;
 - c) any changes in the shareholding of the state corporation during the financial year;
 - d) the amount of any funding in the form of grants or subsidies provided by the national government to the state corporation or government-linked state corporations, excluding profit-making state corporation, during the financial year;
 - e) the amount of any loans made by the national government to the state corporation, and the amount of any guarantees issued by the national government in respect of the state corporation, during the financial year;
 - f) the cumulative amount of undischarged loans and guarantees in respect of the state corporation;
 - g) the amount of the profit/surplus or loss/deficit of the state corporation for the financial year;
 - h) the amount of any revenue received by the national government from the state corporation during the financial year, including dividends, interest and proceeds from any divestiture of assets of the state corporation;
 - i) the amount of payments made, or losses incurred, by the national government to meet contingent liabilities as a result of loans or guarantees during the financial year, including payments made in respect of guarantees, loan write-offs or waiver of interest on loans; and
 - j) An assessment of the financial and related non-financial performance of the state corporation for the financial year.
- (3) Once every three years, the Cabinet Secretary responsible for matters relating to public investments shall prepare a report on the assessment of the national government's continued involvement or investment in, or funding of, the state corporation or government linked corporation.
- (4) The Cabinet Secretary responsible for matters relating to public investments shall submit copies of the reports referred to in subsections (2) and (3) to the Cabinet Secretary, the Controller of Budget, the Commission on Revenue Allocation and to the Auditor-General

**THE CONSOLIDATED
NATIONAL
GOVERNMENT
INVESTMENT REPORT
2018**

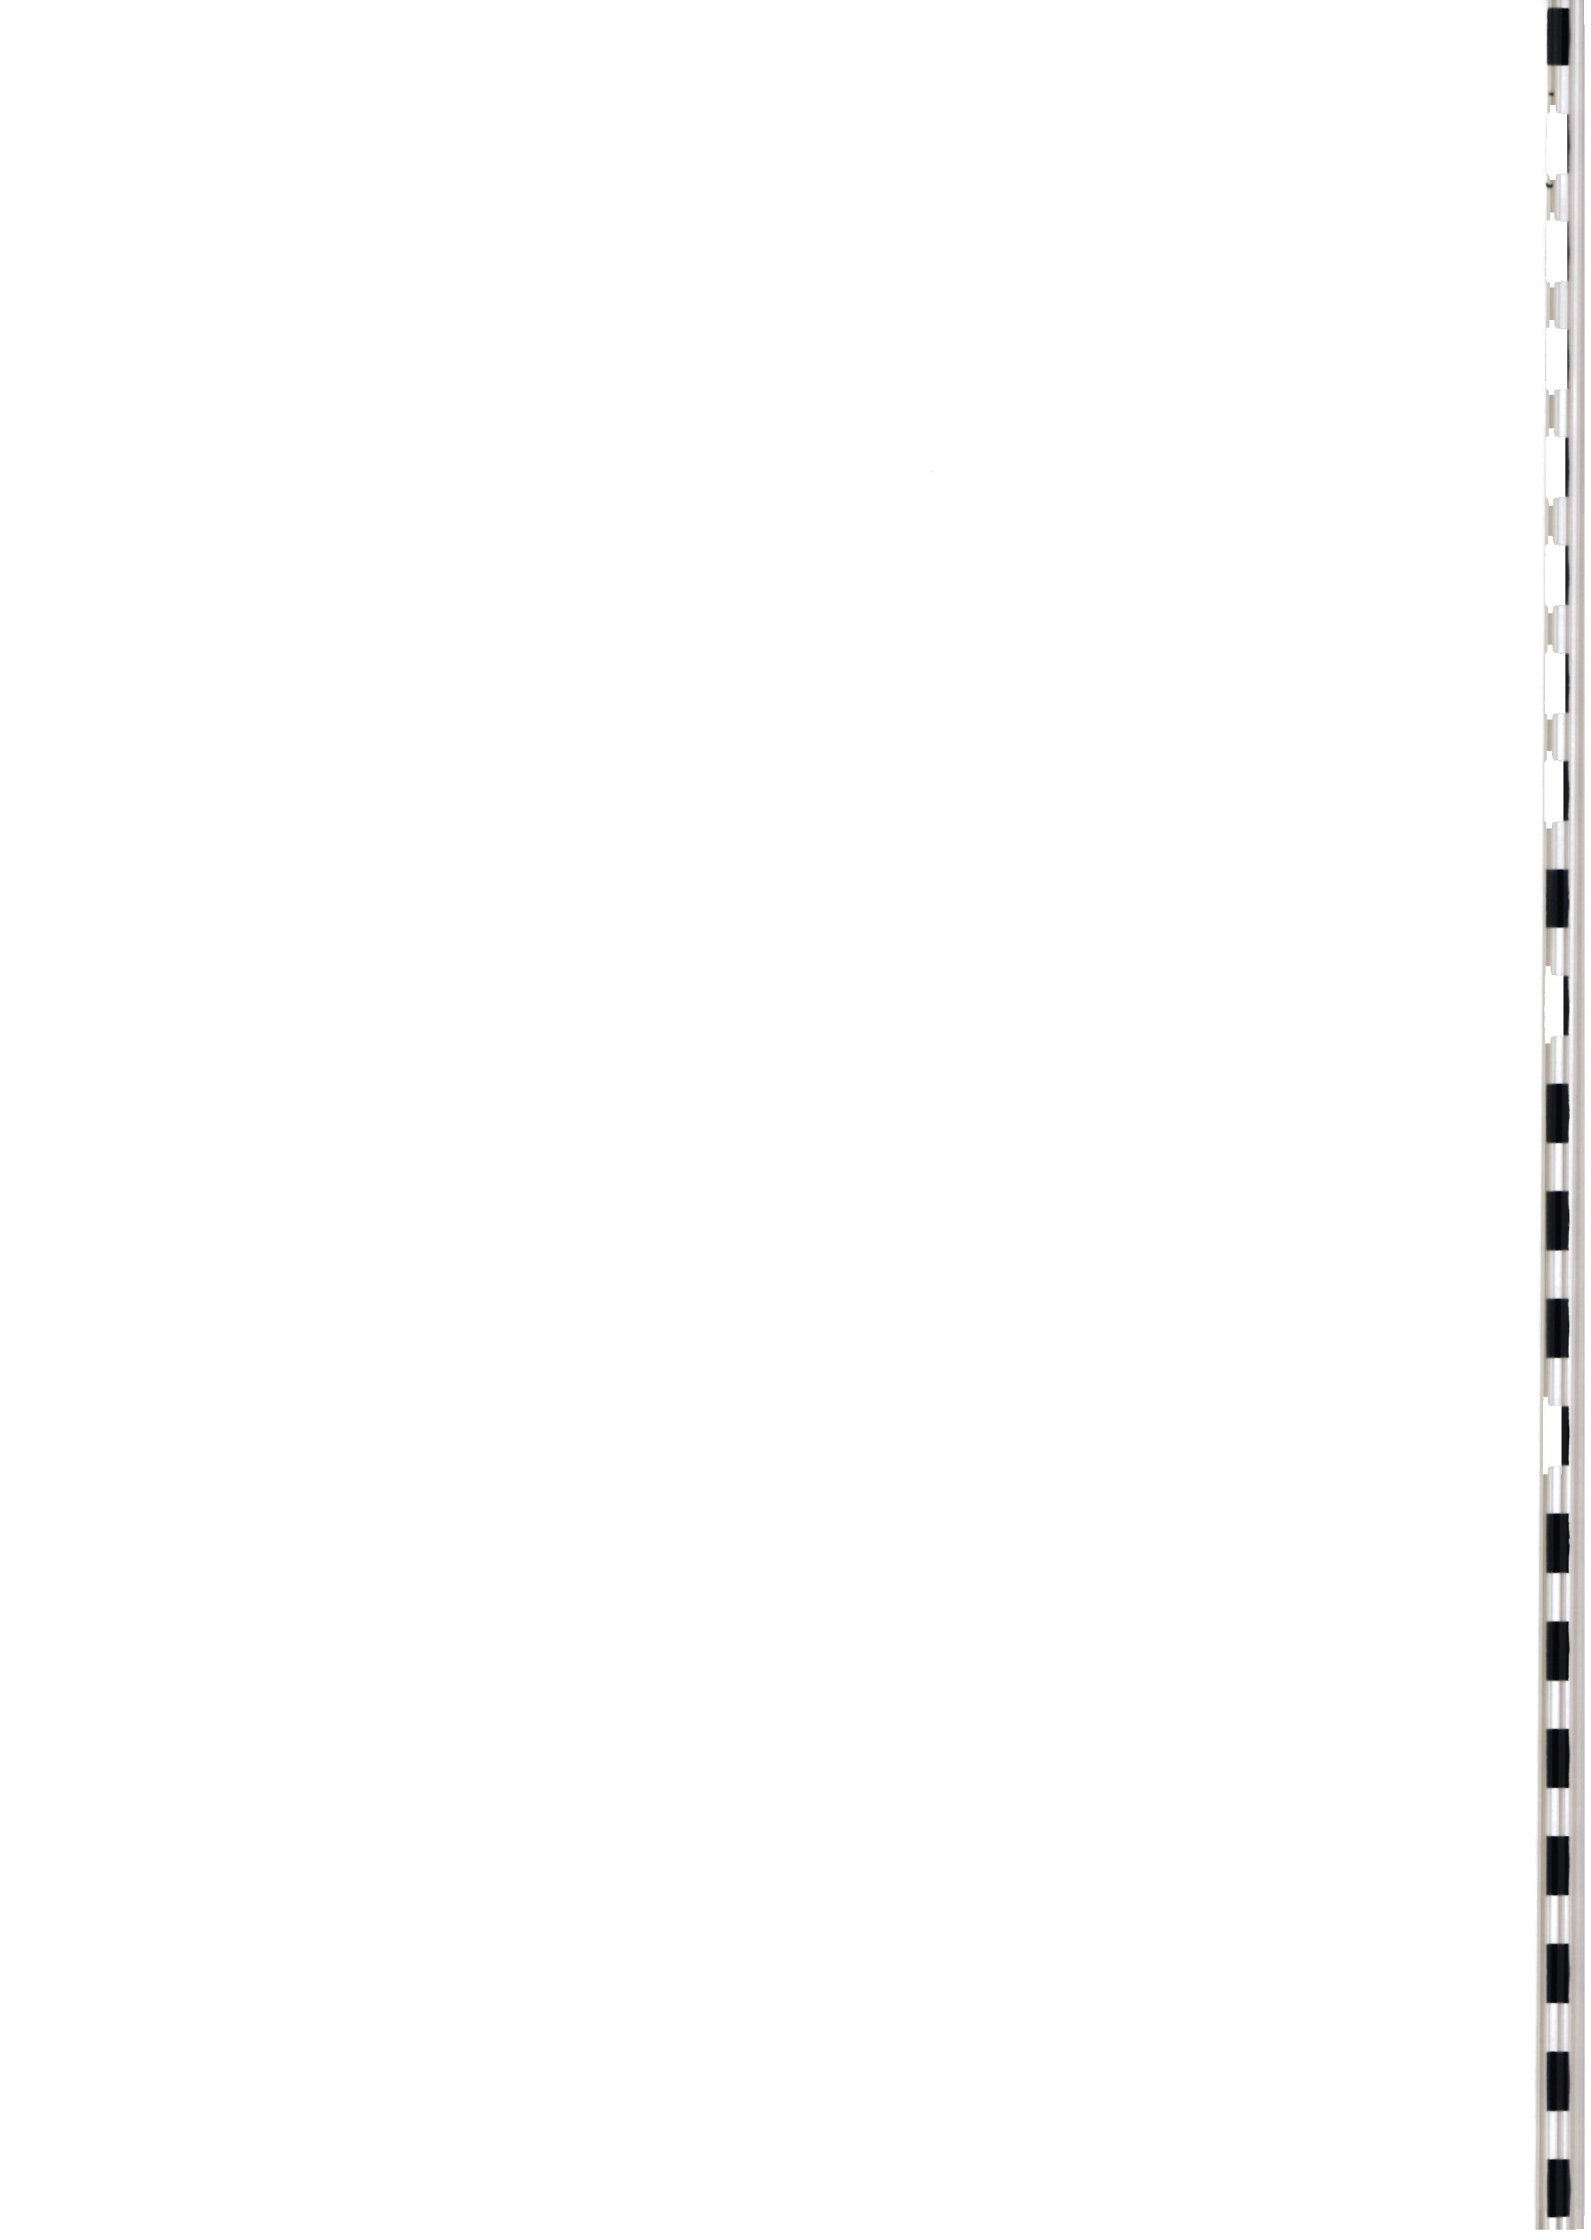

I Introduction

1. The Government remains committed to deliver services to its people uplift their standards of living and achieve a high standard of living and prosperity. These policy intentions are clearly enunciated in various policy documents.
2. To achieve these noble long-term goals and objectives, the Government has over the years implemented several long-term development plans, each with specific objectives and outcomes. The Vision 2030 strategy currently being pursued by the Government aims at making Kenya a globally competitive and prosperous nation with a high quality of life for its citizens by 2030 in a clean and secure environment.
3. The Vision 2030 was programmed for implementation through five-year medium-term plans (MTP). The Government has implemented the first two medium term plans (MTP1 and MTP2) with tremendous achievements in electricity generation, electricity transmission and distribution; expansion of road networks; telecommunication connectivity; expansion of water provision; access to education; higher quality of health provision etc. The MTP3 has been prepared and is ready for rolling out in 2018/2019 Financial Year. The MTP3 will largely be implemented through and driven by the Big Four Agenda, with a focus on issues that would have the greatest impact on the well-being of our people, i.e. food security, affordable housing, manufacturing and affordable healthcare for all.
4. To achieve the Vision 2030, the Government has deliberately separated the role of policy formulation and oversight to the line Ministries and transferred the responsibility for implementation of these policies to its agencies, mainly the State Corporations sector, that are better resourced and focused to implement the Government agenda.
5. In consolidating its effort to support the economy, the Government also invests in other organizations, primarily commercial companies (Government Linked Corporations), besides State Corporation. These investments in particular targets perceived high risk investments from the private sector perspective, but in themselves have a high impact to the economy. In this regard, the Government supported the restructuring of Kenya Airways, Mumias Sugar Companies and Uchumi Supermarket. During the just concluded balance sheet restructuring of Kenya Airways, GOK shareholding went up from 28 per cent to 49 per cent
6. State Corporations or Parastatals are legal entities established by Government or investments in which the government holds over 50 per cent ownership. They implement priority government policies, projects and programmes in social, business

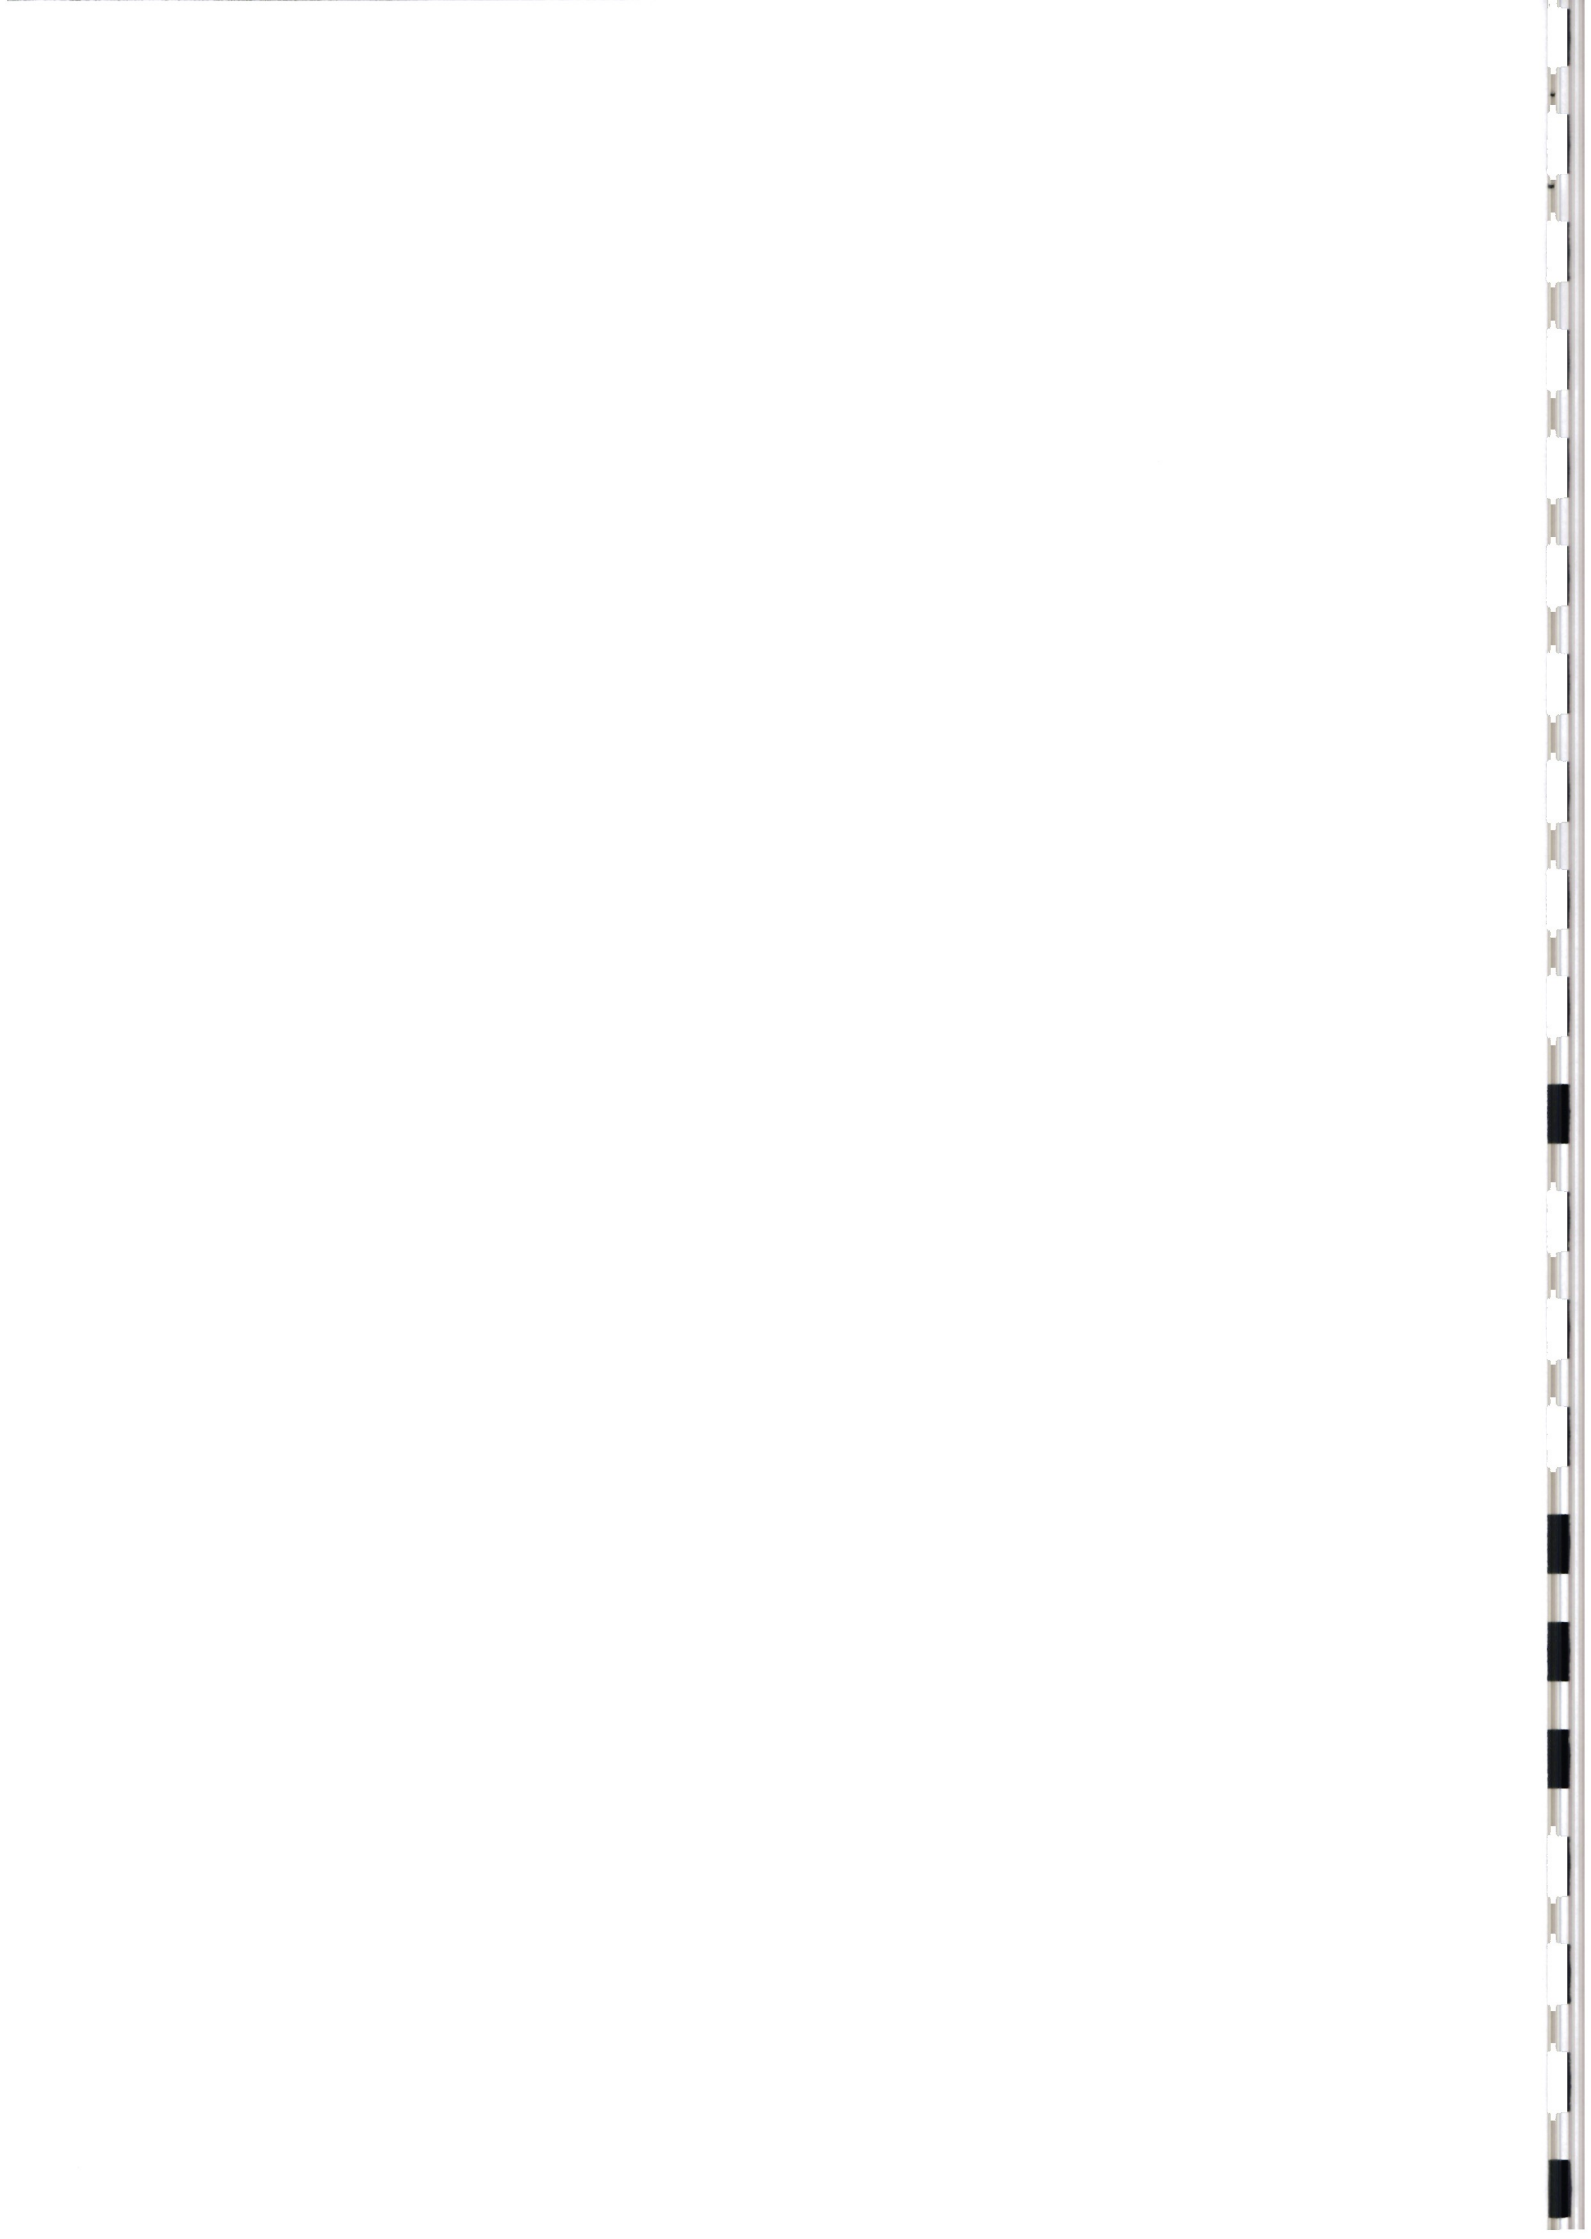

and commercial sectors of the economy. They are incorporated under the Companies Act or an Act of Parliament in which whole or controlling shareholding belongs to the Government. State Corporations are therefore, distinct legal entities that are operationally autonomous from Government and may be self-financing through internally-generated funds, partially funded or fully financed by the Exchequer.

7. Government linked corporations (GLC) are entities in which the Government's shareholding is less than 50 per cent. Government's participates in GLC's primarily to correct market failures and also partake in profit sharing in profitable enterprises to augment public resources.
8. State Corporations are categorized as commercial and non-commercial. The State Corporation Act Cap 446 is the over-arching governing law on the establishment, fiduciary oversight on management and governance; and financial control of State Corporations.
9. Commercial State Corporations comprise of:
 - a. Companies with GoK shareholding, through the Cabinet Secretary to the National Treasury as a body corporate, of more than 50%;
 - b. A body Corporate established to perform a strategic function profitably,
 - c. An entity that generally operates on commercial principals,
 - d. Generally self-financing and sustaining except in financing investment for public policy objectives; and
 - e. Accountable to all stakeholders and the public through the relevant committee of Parliament.
10. Among the Commercial State Corporations with "public goods" mandate for which GoK is required to meet the full cost of those activities using budgetary resources approved by Parliament are Kenya Broadcasting Corporation, Kenya Ferry Services Limited and National Cereals & Produce Board as it relates to Strategic Grain Reserves.
11. Non-Commercial State Corporations are expected to operate on a cost recovery basis and largely depend on monies appropriated by Parliament, levies and fees. They include; regulatory agencies and statutory boards; research institutions; institutions of higher learning and referral hospitals. Non-Commercial State Corporations deliver services on behalf of Ministries and are funded mainly through the National Budgets in form of grants or loans from the Government.

12. State Corporations contribute to the realization of the Country's development agenda through provision of essential services and infrastructure which are geared towards enhancing the competitiveness of our economy and overall social economic development goals. Whereas significant progress has been made in upgrading and developing of key infrastructure, Kenya continues to have significant infrastructure development needs. In this regard, the State Corporations sub-sector continues to implement key infrastructural projects and programs covering all sectors of the Kenyan economy in line with Vision 2030 and Government's Agenda Four priorities.
13. Notable organizations driving the national development agenda are the infrastructure State Corporations among them Kenya Electricity Generating Company(KENGEN), Kenya Railways Corporation(KRC), Kenya Ports Authority (KPA), Kenya Airports Authority (KAA), ICT Authority, Kenya Power, National Water Harvesting & Storage Authority and the roads authorities. In addition to infrastructure State Corporations, the Government has established the Lamu Port-South Sudan-Ethiopia Transport (LAPSET) Corridor and the Special Economic Zones authority to spearhead opening up of new economic blocks. The Government has also established State Corporations in the health sector, financial sector; Research Institutions and Universities among others.
14. The operationalization of Phase I of the Standard Gauge Railway (SGR) from Mombasa to Nairobi has enabled Kenyans to enjoy cheaper and faster travels between Mombasa and Nairobi using Madaraka Express. In addition, the SGR freight service that started in January 2018, has facilitated cheaper movement of goods, with monthly loads increasing from the initial 22,345 metric tonnes to an impressive 213,559 metric tonnes, a ten-fold increase in only a few months. The construction work for Phase II of the Standard Gauge Railway from Nairobi to Naivasha is in progress. In 2017/2018 Financial Year, roads agencies; KeNHA, KURA and KeRRA were able to upgrade 432 km of roads to Bitumen Standard, reconstructed and rehabilitated 180.97 km and constructed 142 km under the low volume seal Roads Strategy. Further, road agencies periodically maintained 2,437 km of roads, routine maintenance of 11,177 km, constructed 18 new bridges, completed detailed designs for 1,652 km and constructed 109 km of pedestrian walkways. The Government also pursued implementation of major ICT investments including the expansion of the Fibre Optic Backbone Infrastructure across the Counties thus facilitating reliable high-speed networks and supported e-government service and innovation among businesses.
15. In order to enhance the contribution of the State Corporations to the Country's economic and social progress, key reforms aimed at addressing systemic weaknesses and challenges facing the individual institutions in the Parastatal sub-sector will be pursued. The specific restructuring initiatives will include merging of the Industrial

- and Commercial Development Corporation (ICDC) with the Industrial Development Bank (IDB) and the Tourism Finance Corporation (TFC) to create the Kenya Development Bank with enhanced capacity to meet the financing requirements of key sector; and implementation of initiatives to address the challenges of government investments in the banking sector.
16. On Privatization Programmes, the government endeavors to undertake reviews aimed at identifying, unlocking and prioritizing transactions with high impact potential in the implementation of the national development agenda. In regard to the privatization of sugar companies, structured engagements with all primary stakeholders in the sugar industry are on-going. Consultations have been held with the Council of Governors with a view to identifying sustainable solutions to the challenges facing the operations of the state-owned sugar milling companies.
17. This Report comprises of the following five statements as required under the PFM Act 2012: -
- (i) Consolidated Statement of National Government Shareholding/Equity and Funding of State Corporations and Government-Linked Corporations;
 - (ii) National Government Shareholding/Equity in State Corporations and Government-Linked Corporations;
 - (iii) National Government Grants and Subsidies to State Corporations and Government-Linked Corporations;
 - (iv) Loans and Guarantees by National Government to State Corporations and Government-Linked Corporations;
 - (v) Statement of Revenue Receipts from State Corporations;

II. Status of Government Involvement in State Corporations in 2017/2018 Financial Year

18. A summary of the National Government involvement in Public Investments is as summarized in **Schedule A**. In 2017/2018 Financial Year, the total GOK shareholding in nominal terms was **Kshs 34,503 million** up from **Kshs 22,494 million** in 2016/2017 Financial Year. The increase in GoK shareholding was attributed to GoK taking up additional shares during Kenya Airways balance sheet restructuring. Consequently, GoK shareholding in Kenya Airways rose from 28% in 2016/2017 Financial Year to 49% in 2017/2018 Financial Year.
19. The total revenues (internally generated funds) increased by 3.1 per cent from **Kshs. 526,061 million** in 2016/2017 Financial Year to **Kshs. 542,591 million** in 2017/2018 Financial Year. The Total assets increased by 11 per cent from **Kshs. 4,103,267**

million in 2016/2017 Financial Year to **Kshs. 4,557,787 million** in 2017/2018 Financial Year. The increase is mainly attributable to the growth in infrastructure development under the Ministry of Transport, infrastructure housing development; Kenya Railways with total assets amounting to **Kshs.623,988 million** and KeNHA with total assets amounting to **Kshs.413,375 million**. The increase in Kenya Railways assets is due to investment in the Standard Gauge Railways SGR and KeNHA is mainly due to investments in the road sector.

III. Grants and Subsidies

- 20. Total grants and subsidies to State Corporations in 2017/2018 Financial Year were **Kshs. 348,930 million** compared with **Kshs. 403,144 million** in the previous year. During 2017/2018 financial year, 48% of total Government grants was for development and the remainder for recurrent.
- 21. State Corporations generated approximately **Kshs 542,591 million** in 2017/2018 Financial Year which accounted for about 60.86 % of total revenue within the State Corporations subsector with the remainder (39.14%) coming from Government grants.

Revenue of State Corporations 2017/18

Govt Grants and Subsidies 2017/18

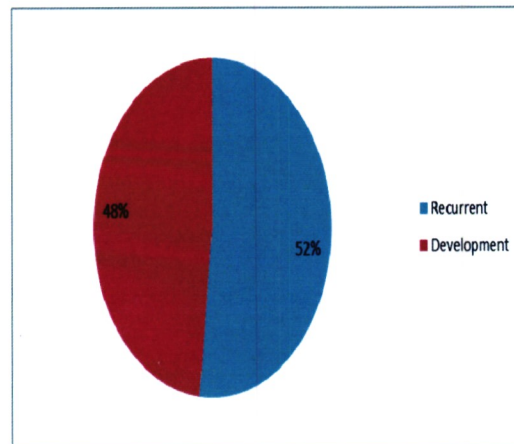

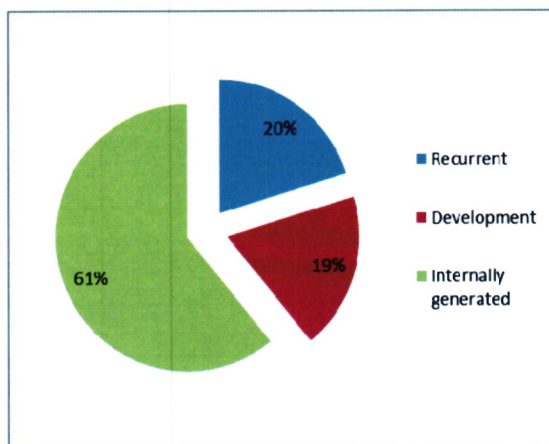

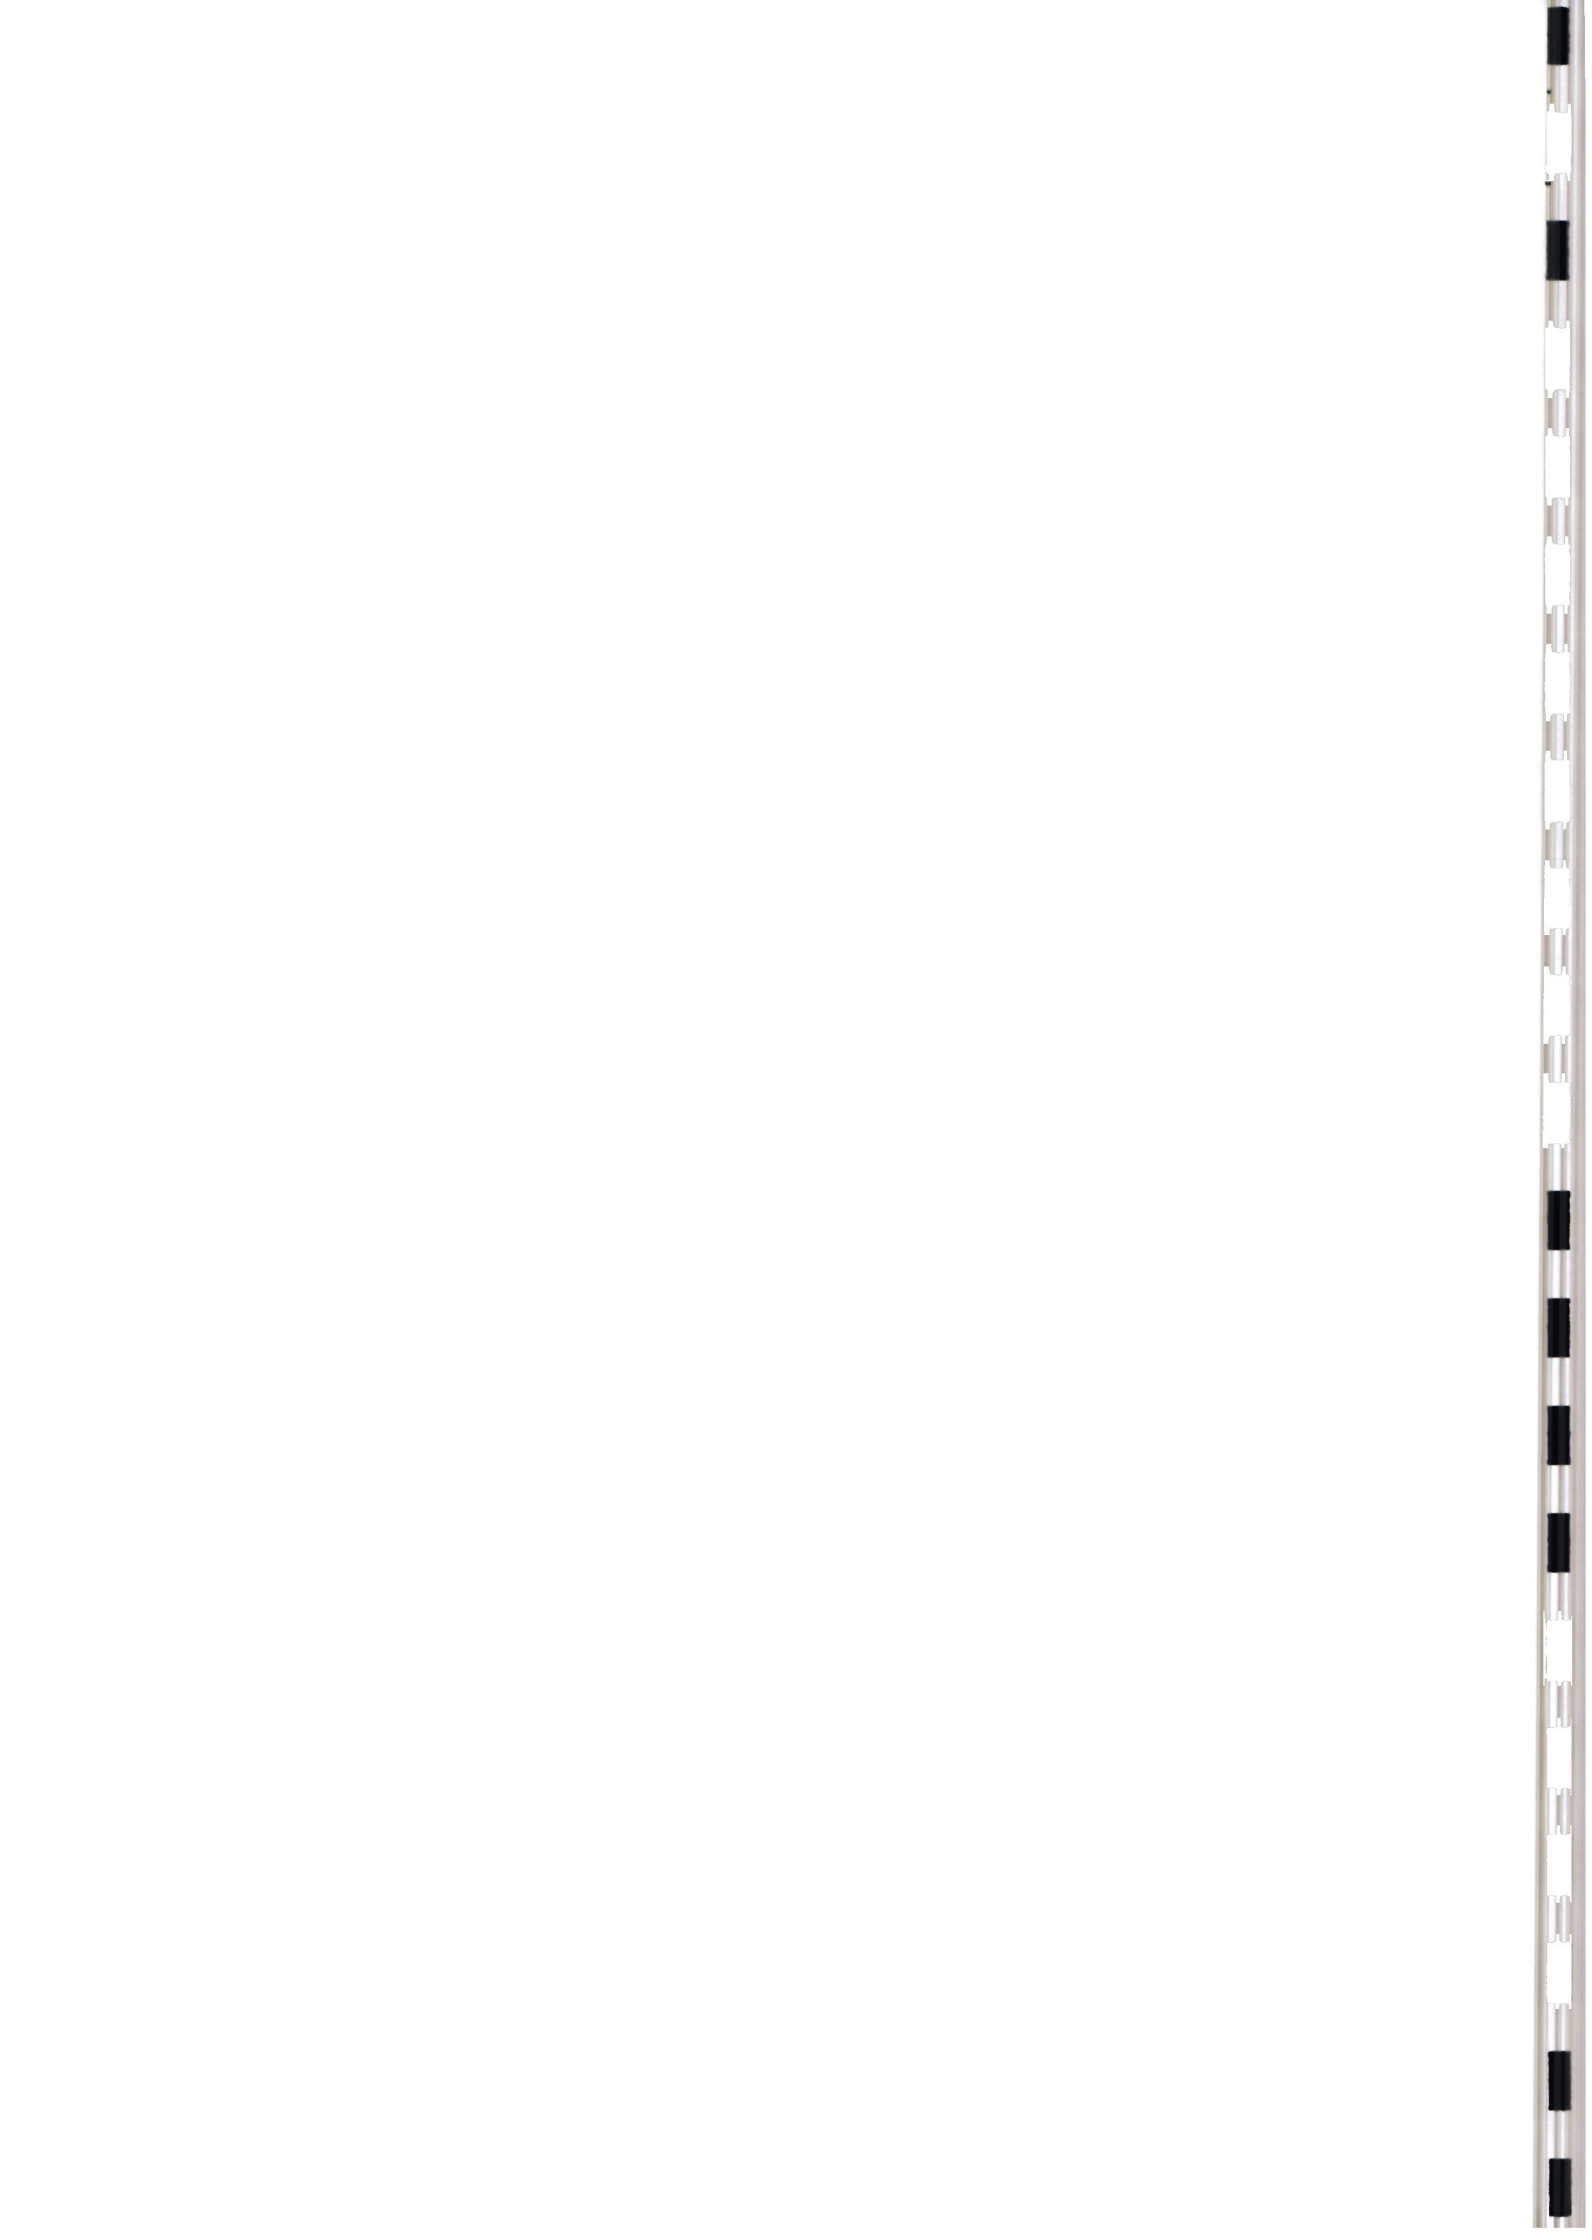

Figure 1: Internally Generated Revenue, GOK grants and subsidies FY in 2017/2018

22. The State Corporations under the Ministry of Education received the highest transfers of recurrent grants at **Kshs. 59,889 million** in 2017/2018 Financial Year. This allocation was mainly to public universities. State Corporations under the Ministry of Transport, Infrastructure, Housing and Urban Development received recurrent grants amounting to **Kshs 44,165 million**.

Government Recurrent Grant to State Corporations under selected Ministries 2017/2018 FY

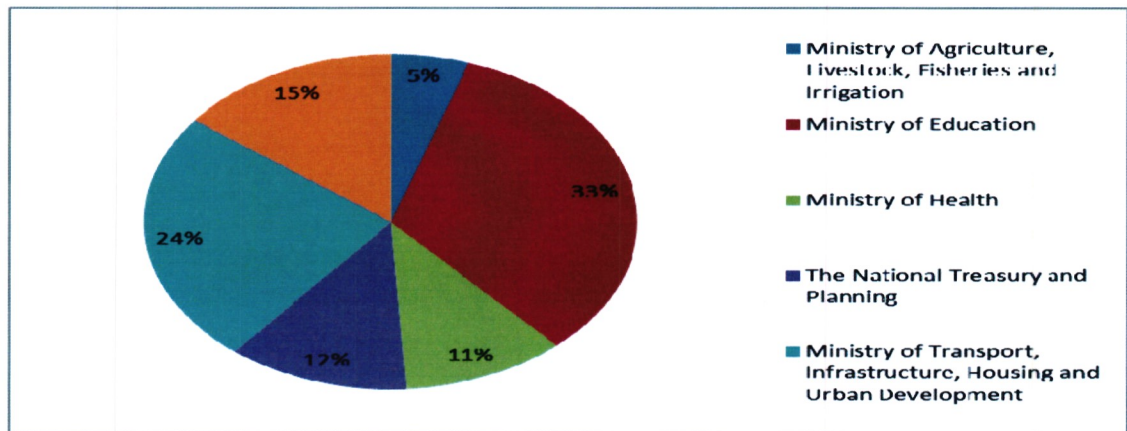

Figure 2: Distribution of Recurrent Grants to State Corporations FY2017/2018

23. In 2017/2018 Financial Year, allocation of Government Development Grants to State Corporations under the Ministry of Transport, Infrastructure, and Housing account for 53% of the total allocation at **Kshs. 89,541 million**. The Ministry of Energy received 24% of the allocation of Development Grants in 2017/2018 Financial Year at **Kshs. 39,633 million**. The remaining 23% was allocated to the other ministries.

Govt Development Grant to State Corporations under selected Ministries 2017/2018 FY

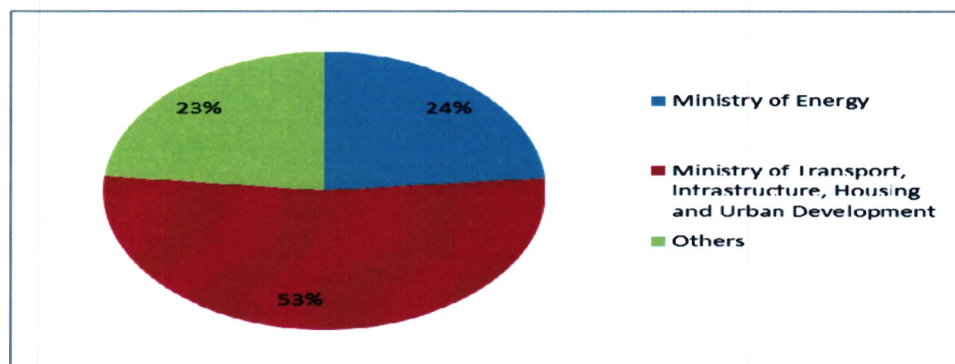

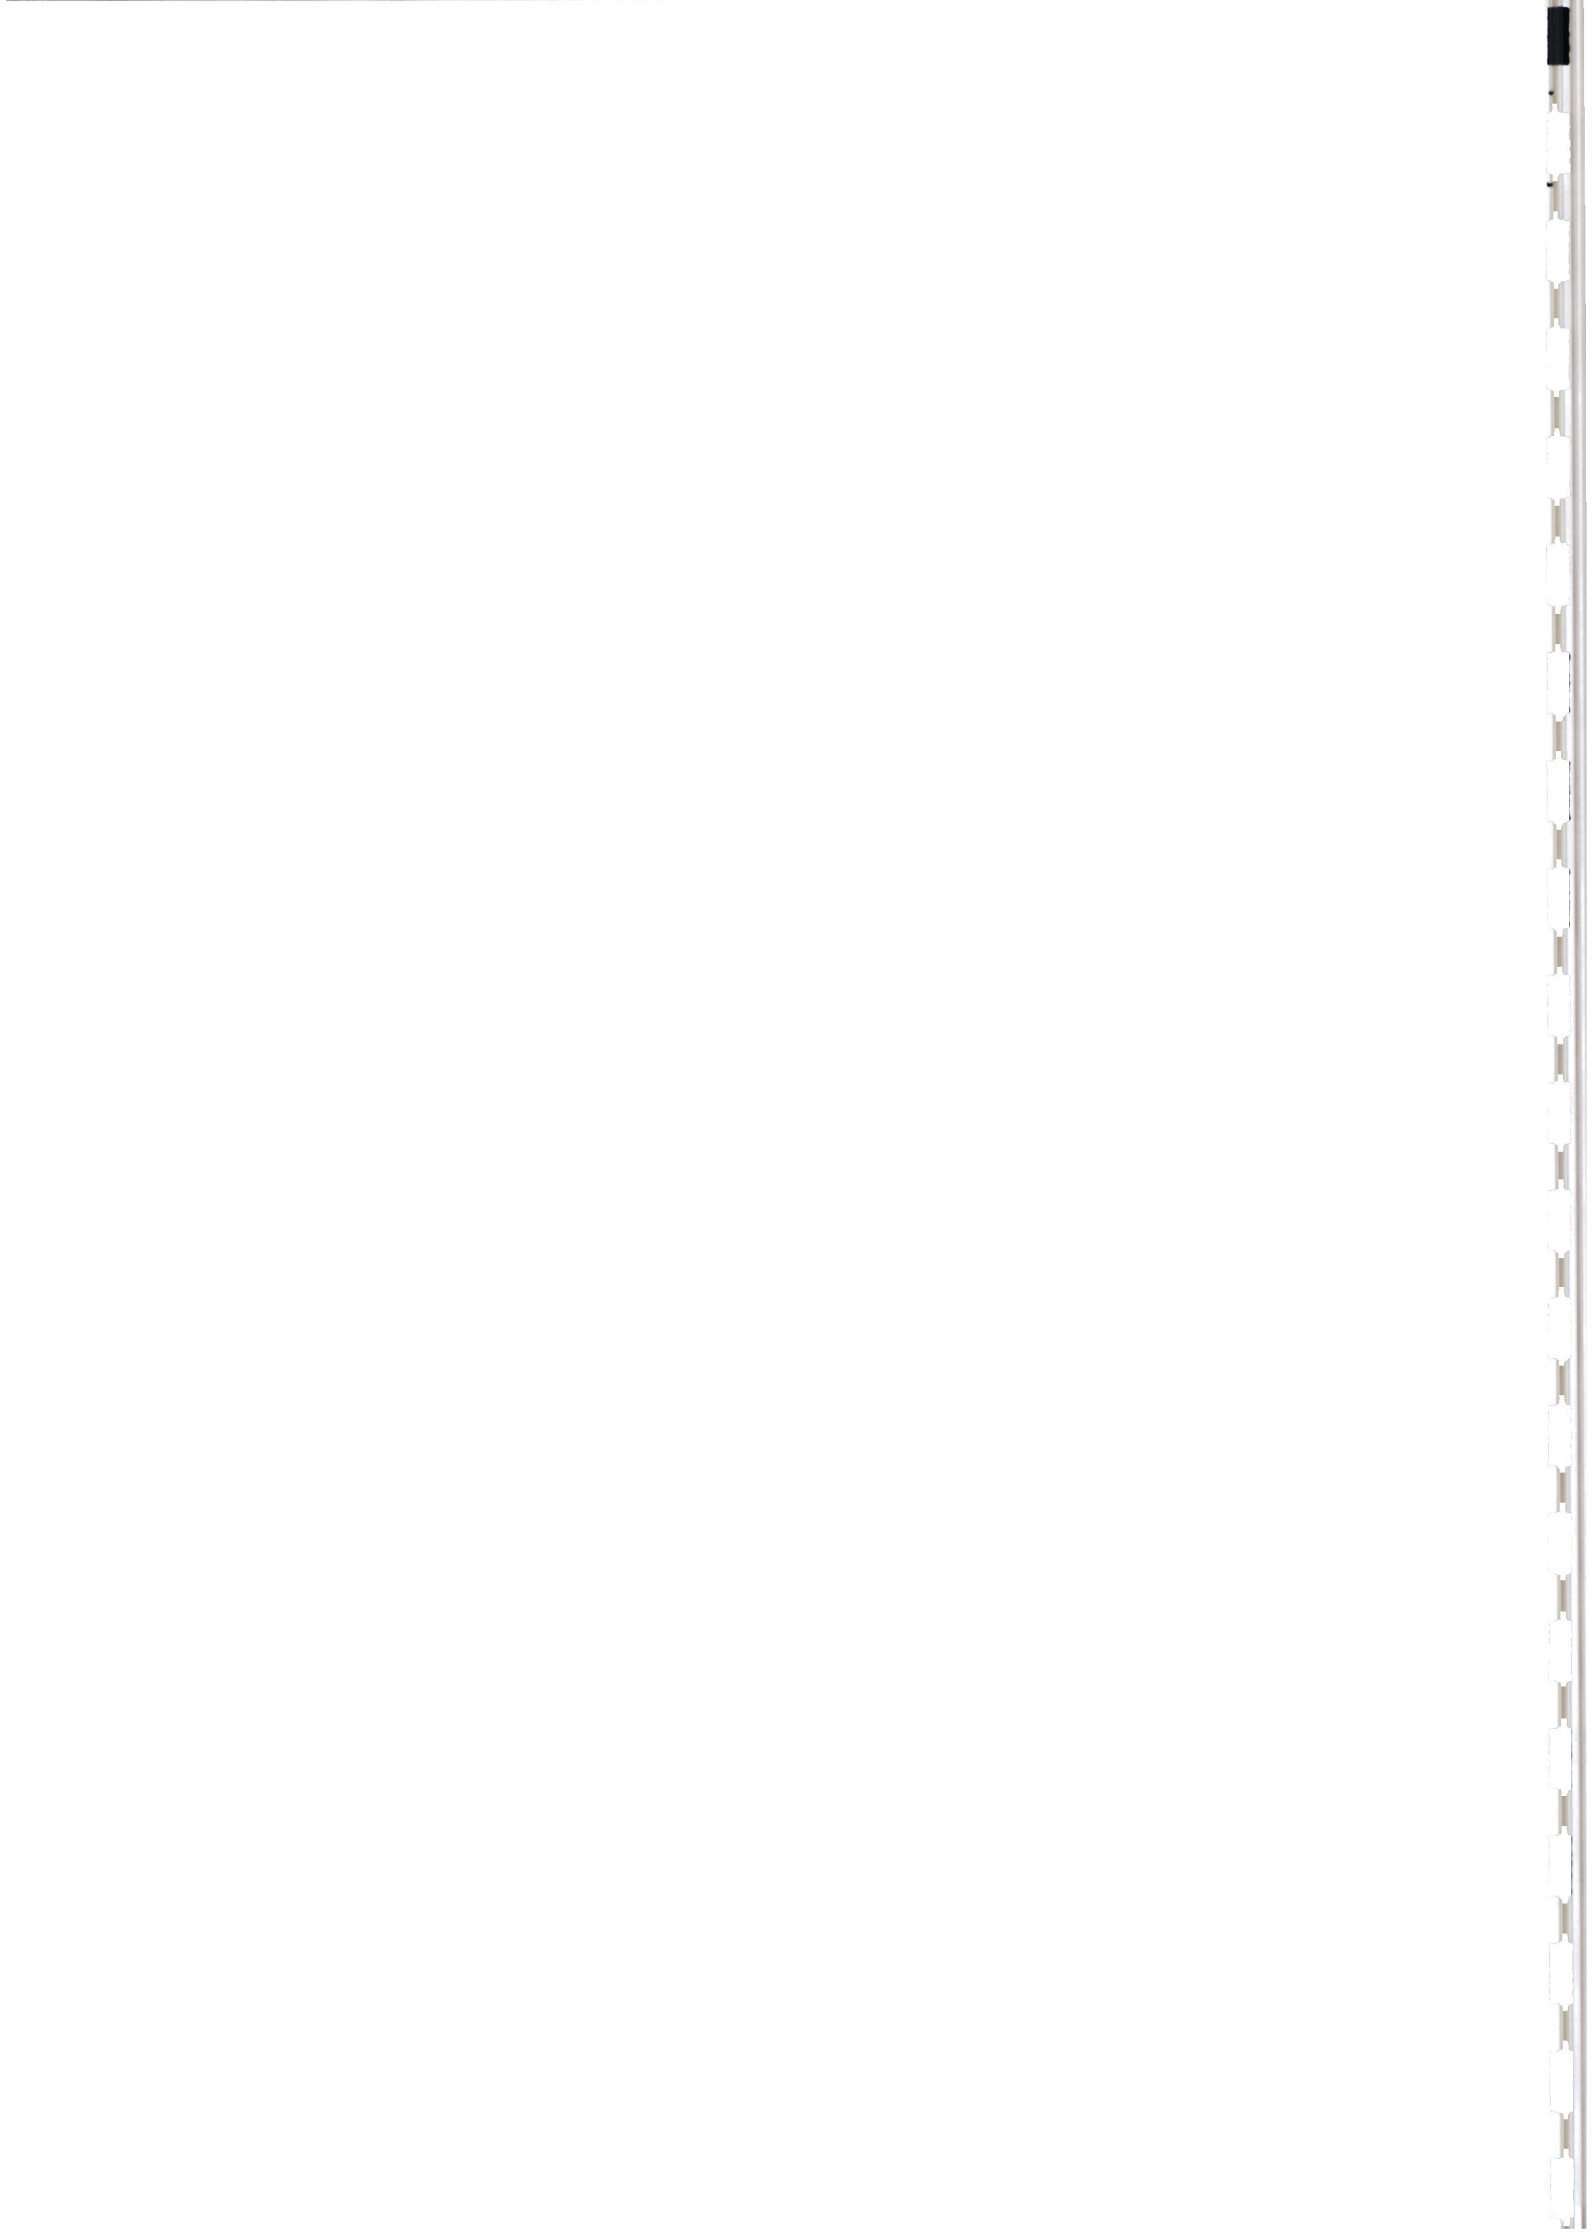

Figure 3: Distribution of Development Grants to State Corporations FY 2017/2018

IV. Financial Performance

24. Financial reporting by Commercial State Corporations is in accordance with the International Financial Reporting Standards (IFRS) while financial reporting by non-commercial State Corporations reports is in accordance with International Public Sector Accounting Standards (IPSAS). Consequently, commercial State Corporations reports as either having made a profit/loss while the non-commercial and regulatory bodies reports a surplus/deficit. During 2017/2018 Financial Year, State Corporations posted accumulated profits/surplus amounting to **Kshs. 84,860 million** compared to **Kshs. 77,060 million** posted in 2016/2017 Financial Year. Commercial State Corporations in 2017/2018 Financial Year posted net profit amounting to **Kshs. 57,823 million** compared to **Kshs. 54,001 million** posted in 2016/2017 Financial Year. State Corporations under the Ministry of Labour and Social Protection, Ministry of Energy, National Treasury and Planning, Ministry of Transport, Infrastructure, Housing and Urban Development, Ministry of Petroleum and Mining and Ministry of Industry, Trade and Cooperatives posted the highest profit/surplus at **Kshs. 26,960 million, Kshs. 26,284 million, Kshs. 16,159 million, Kshs. 11,602 million, Kshs. 9,075 million** and **Kshs. 7,052 million** respectively in 2017/2018 Financial Year. State corporations under the Ministry of Information, Communication and Technology, Ministry of Education, Ministry of Agriculture, Livestock, Fisheries and Irrigation; posted accumulated losses/ deficits amounting to **Kshs. 7,072 million, Kshs. 4,648 million** and **Kshs. 1,414 million** respectively in 2017/2018 Financial Year.

V. National Government Loans and Guarantees to State Corporations

25. Under the State Corporations Act, State Corporations have legal capacity to contract debts and other liabilities to finance their requirements. Approval to procure such loans however, must be obtained from the Parent Ministry with the concurrence of the National Treasury as required under the State Corporations Act. Loans to State Corporations are either direct or on-lent. Direct loans refer to loans that the Government lends to State Corporations from exchequer resources. On the other hand, on lent-loans are procured by GOK mainly from bilateral and multilateral sources and on-lent to State Corporations. Capital grants or loans to State Corporations are effected through a Subsidiary Loan/ Grant Agreements between the National Treasury and the individual State Corporations. The Loan/Grant Subsidiary Agreements spell out the terms and conditions of the financing.

26. When a State Corporation's Statement of Financial Position is not able to support a debt for a project that is of national importance, the National Government may be called upon to provide a guarantee. The National Treasury however, provide a guarantee upon approval by Parliament. In 2017/2018 Financial Year, the Government did not issue guarantees to any of the State Corporations for loans that they may have secured. In 2017/2018 Financial Year, the stock of undischarged guarantees was **Kshs. 103,039 million** down from **Kshs. 106,148 million** in 2016/2017 Financial Year. The decrease was attributed to repayment of GOK guaranteed Loans by KenGen. Except for Kenya Broadcasting Corporation, East African Portland Cement and Tana Athi River Development Authority who have defaulted in their obligation to repay GoK guarantee loans, the other State Corporations are servicing their loans. In 2017/2018 Financial Year, GoK paid a total sum of **Kshs. 1,419 million** on behalf of State Corporations that were in financial distress which comprised of **Kshs. 301 million** on behalf of Tana Athi River Development Authority, **Kshs 379 million** on behalf of East African Portland Cement and **Kshs. 739 million** on behalf of Kenya Broadcasting Corporation.
27. Total undischarged GOK loans to State Corporations stood at **730,150 million** by the end of 2017/2018 Financial Year compared with **Kshs. 642,943 million** in 2016/2017 Financial Year. The increase was attributed to loans procured by the Government and on-lent to Kenya Railways Corporations for the implementation of the Standard Gauge Railway. Consequently, the Kenya Railways had the highest stock of undischarged GOK on-lent loans at **Kshs. 395,143 million** followed by Kenya Broadcasting Corporation (KBC) at **Kshs 71,303 million**, KenGen with **Kshs. 64,399 million** as at 30th June 2018. Others were Kenya power and lighting, **Kshs. 46,139 million**, Nzoia Sugar Company **Kshs. 39,698 million** and Athi Water Services Board, **Kshs. 28,722 million**.

VI. Contingent Liabilities

28. As the principal owner of all State Corporations, the Government is the natural underwriter of risk that they face. Analysis of contingent liabilities therefore, is important in understanding the extent of the Government fiscal risks exposure.
29. Contingent liabilities are potential liabilities that may occur depending on the outcome of uncertain future event and are generally not shown in the statement of financial position, but must be given adequate disclosure. However, a contingent liability is only recorded in the financial statements if the contingency is probable and

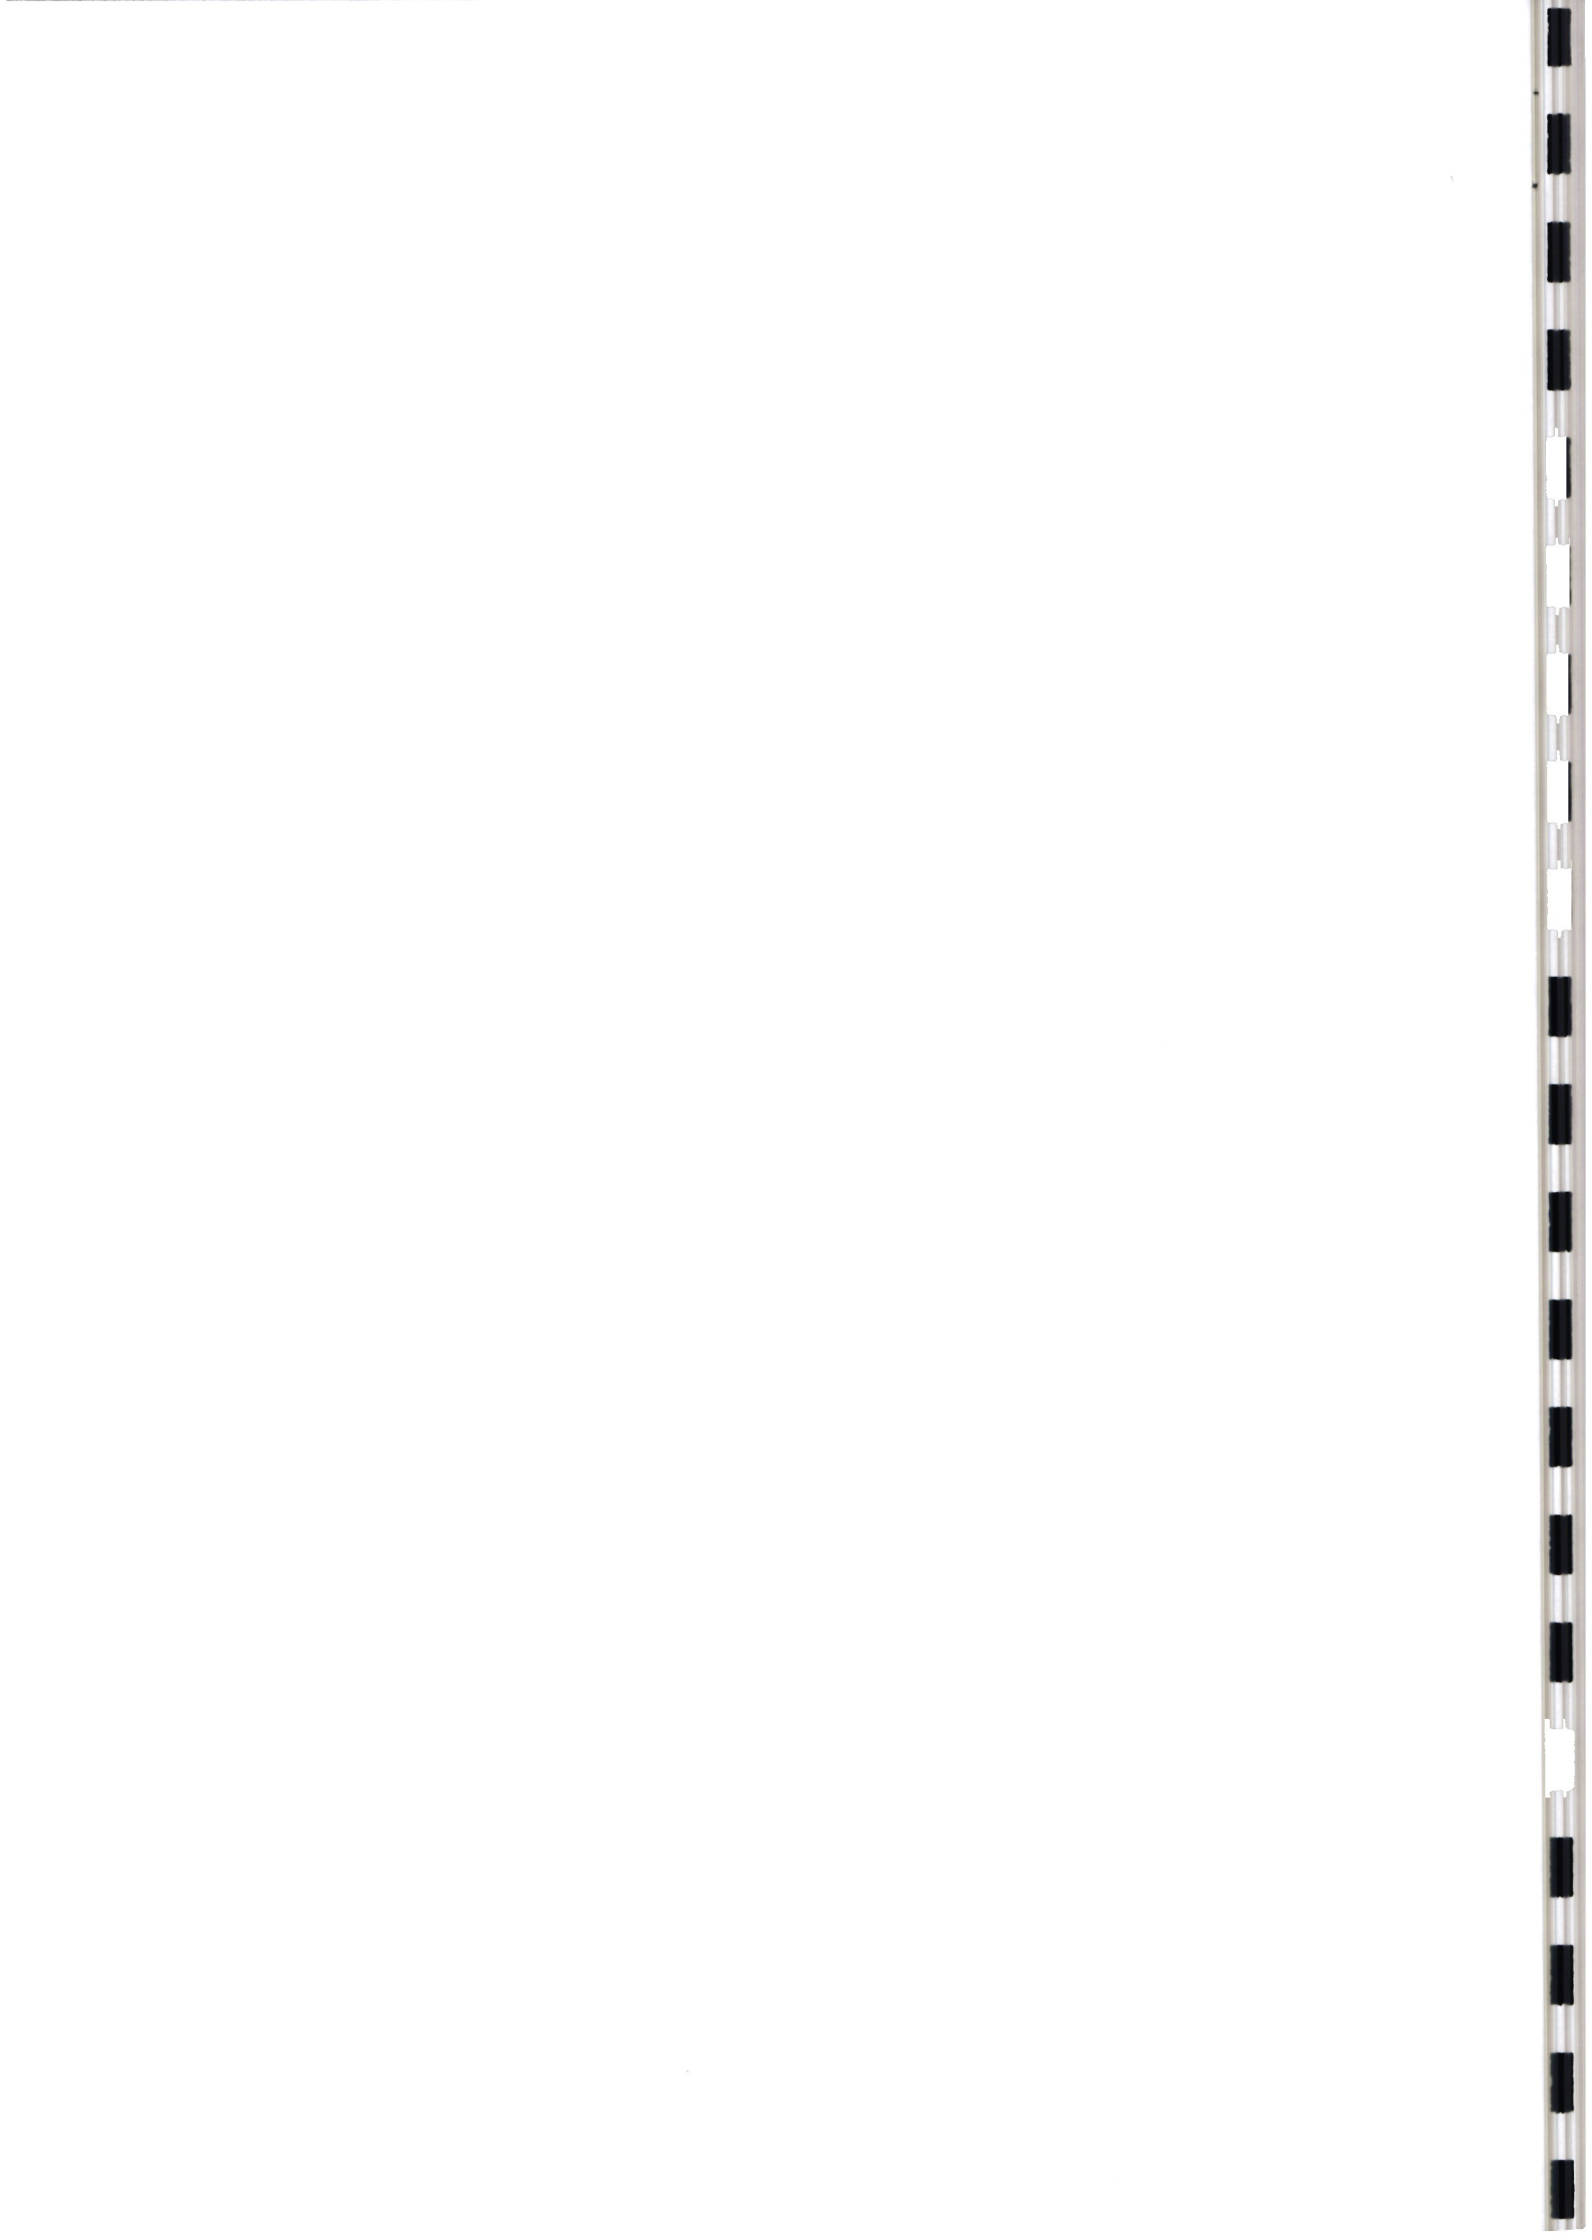

the amount of the liability can reasonably be estimated. Contingent liability can be explicit or implicit. Explicit contingent liabilities are specific government obligations established by law or a contract authorized by law. The government is legally mandated to settle such an obligation when it becomes due. On the other hand, implicit contingent liabilities represent a moral obligation or expected burden for the government not in the legal sense, but based on public expectations and political pressures e.g. GOK intervention in revival of Uchumi supermarket, revival bid of Mumias Sugar Company and Kenya Airways.

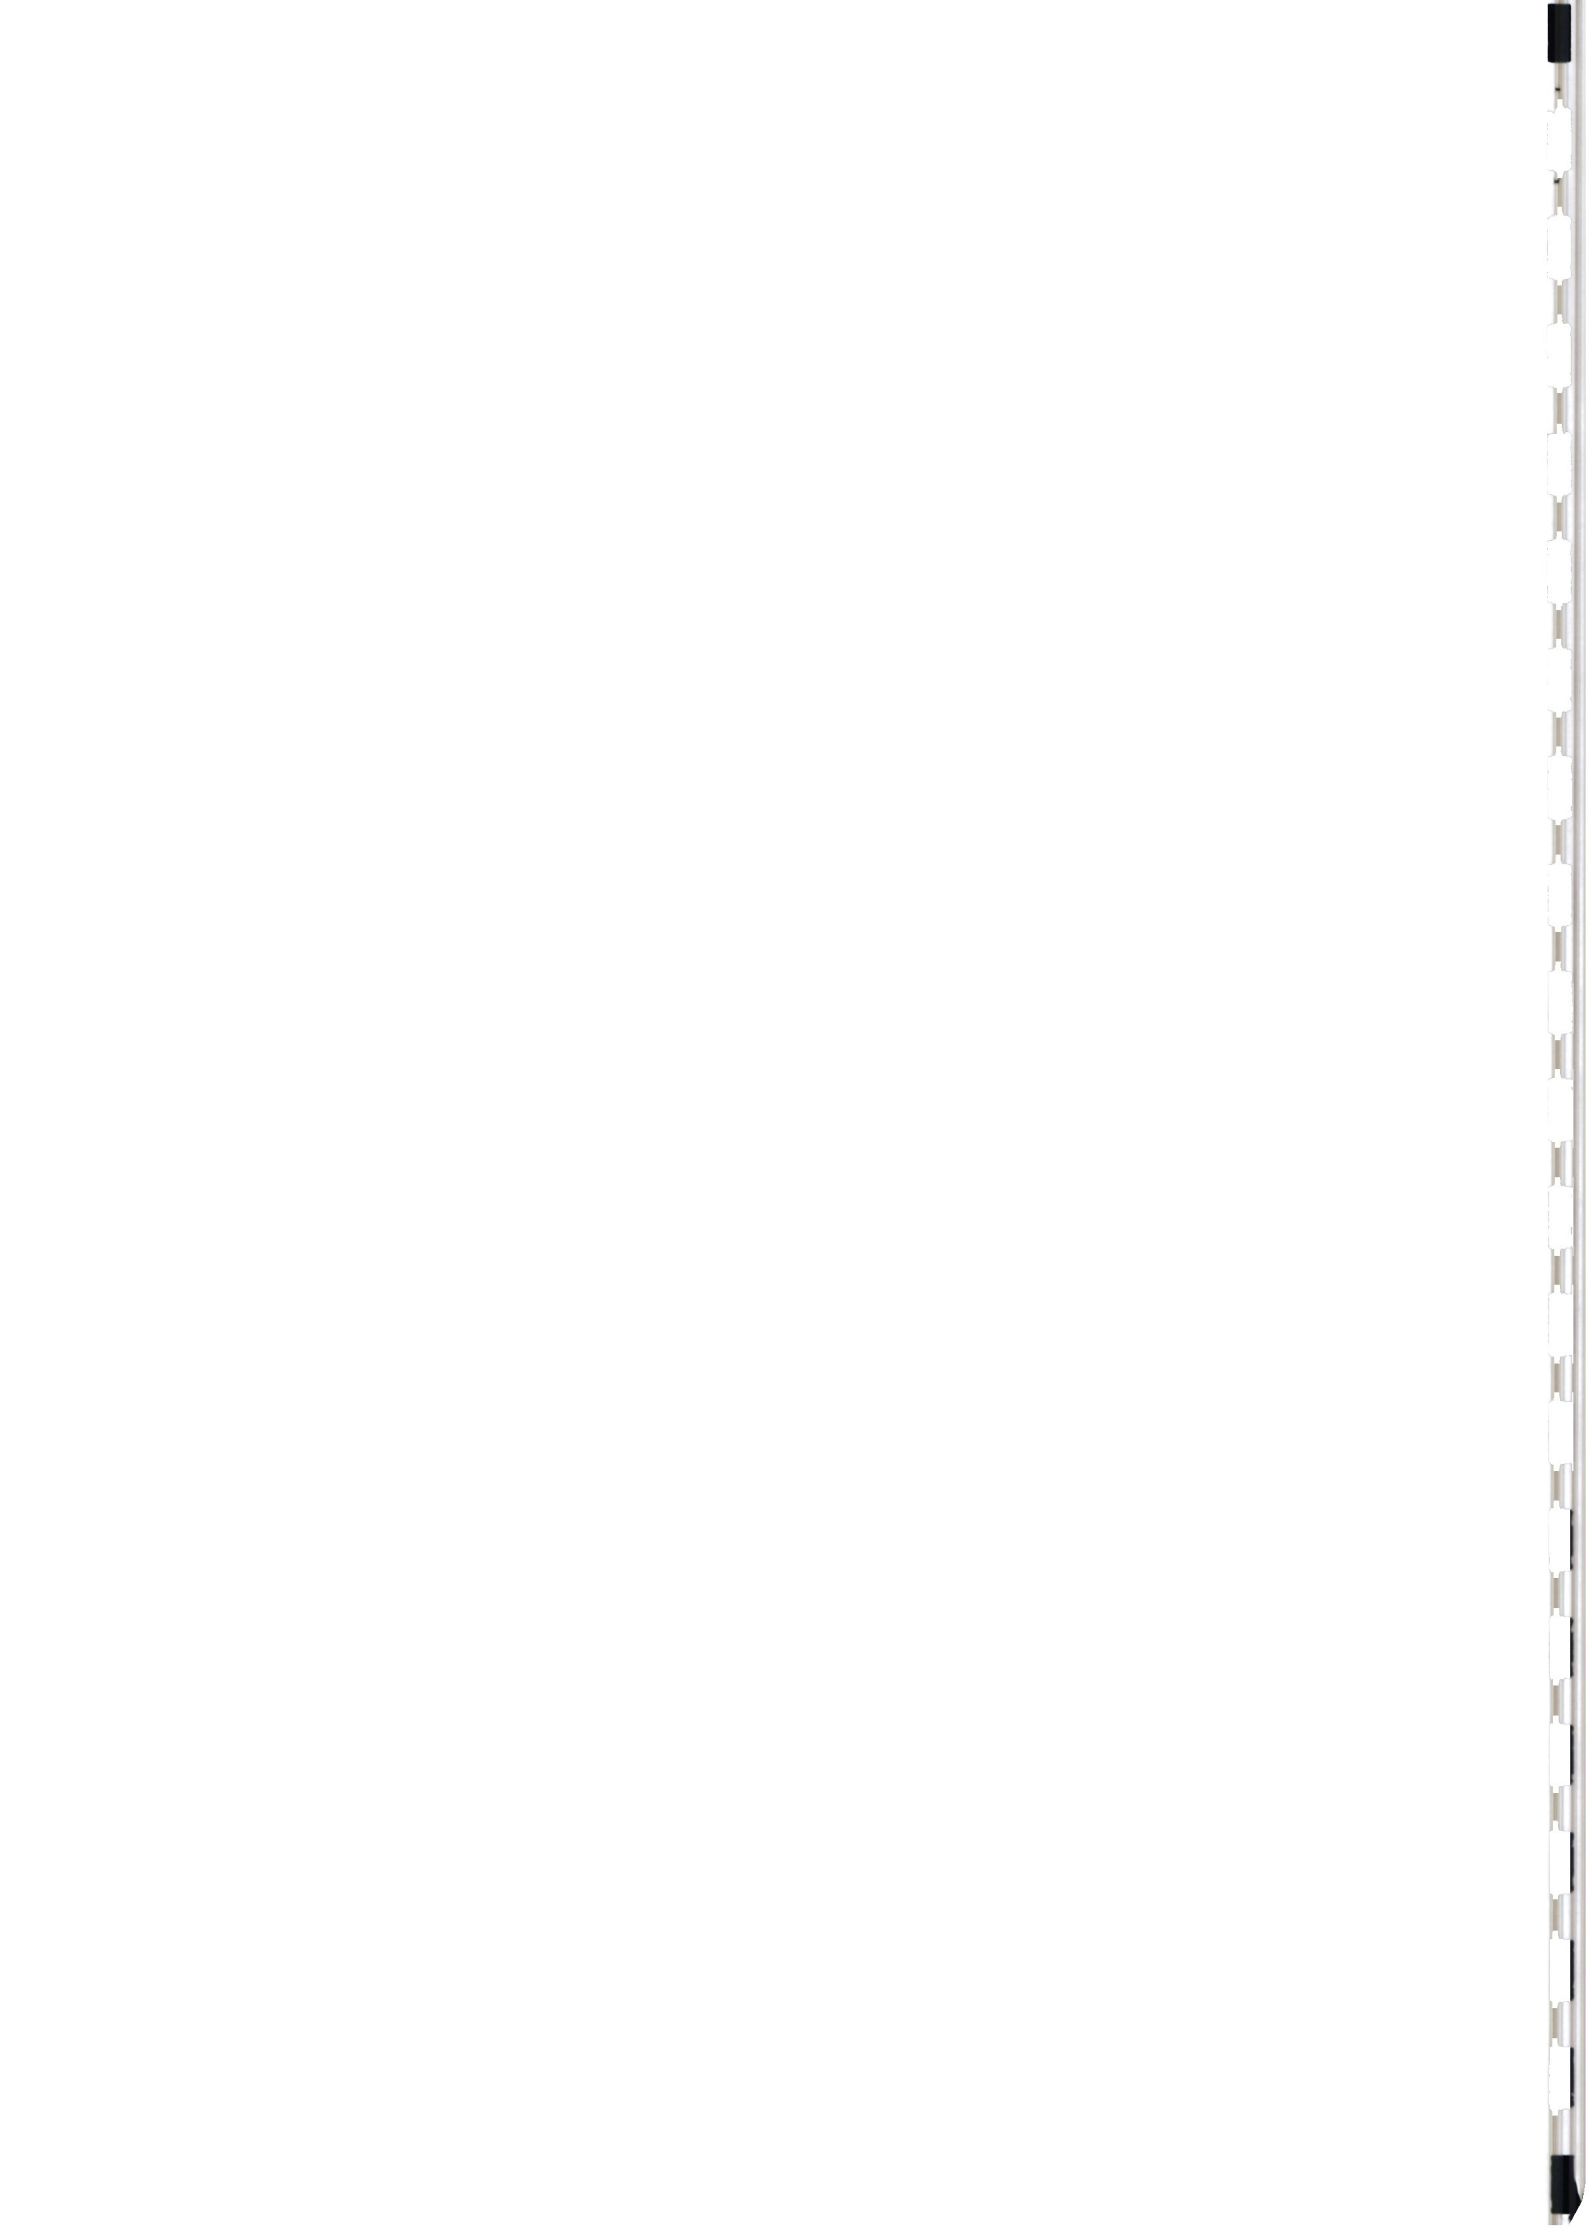

30. In 2017/2018 Financial Year, total exposure in form of contingent liabilities was **Kshs. 403,569 million** compared with **Kshs. 355,823 million** in 2016/2017 Financial Year. Out of the **Kshs. 403,569 million** total contingent liabilities **Kshs. 240,000 million** was attributed to claim against Kenya Broadcasting Corporations over claims that it breached a contract regarding the launching of a TV channel and the digital migration process.

VII. Revenue Receipts by National Government from State Corporations and Government-Linked Corporations

31. The receipts by the National Treasury from State Corporations and Government-linked companies are in form of dividends, loan repayments, and interest on loans, surplus remittances and director's fees. In 2017/2018 Financial Year, total receipts by National Treasury amounted to **Kshs. 35,494 Million**. Receipts from dividends and surplus funds during this period were **Kshs. 25,008 million** representing 56 per cent of total receipts. The highest amount of dividend was from Safaricom Ltd. at **Kshs. 13,602 million**.
32. During the year under review, revenue receipts by Government from State Corporations in respect of Loan Repayment and Interest Charges amounted to **Kshs. 8,038 million** and **Kshs. 10,450 million** in 2016/2017 Financial Year and 2017/2018 Financial Year respectively.

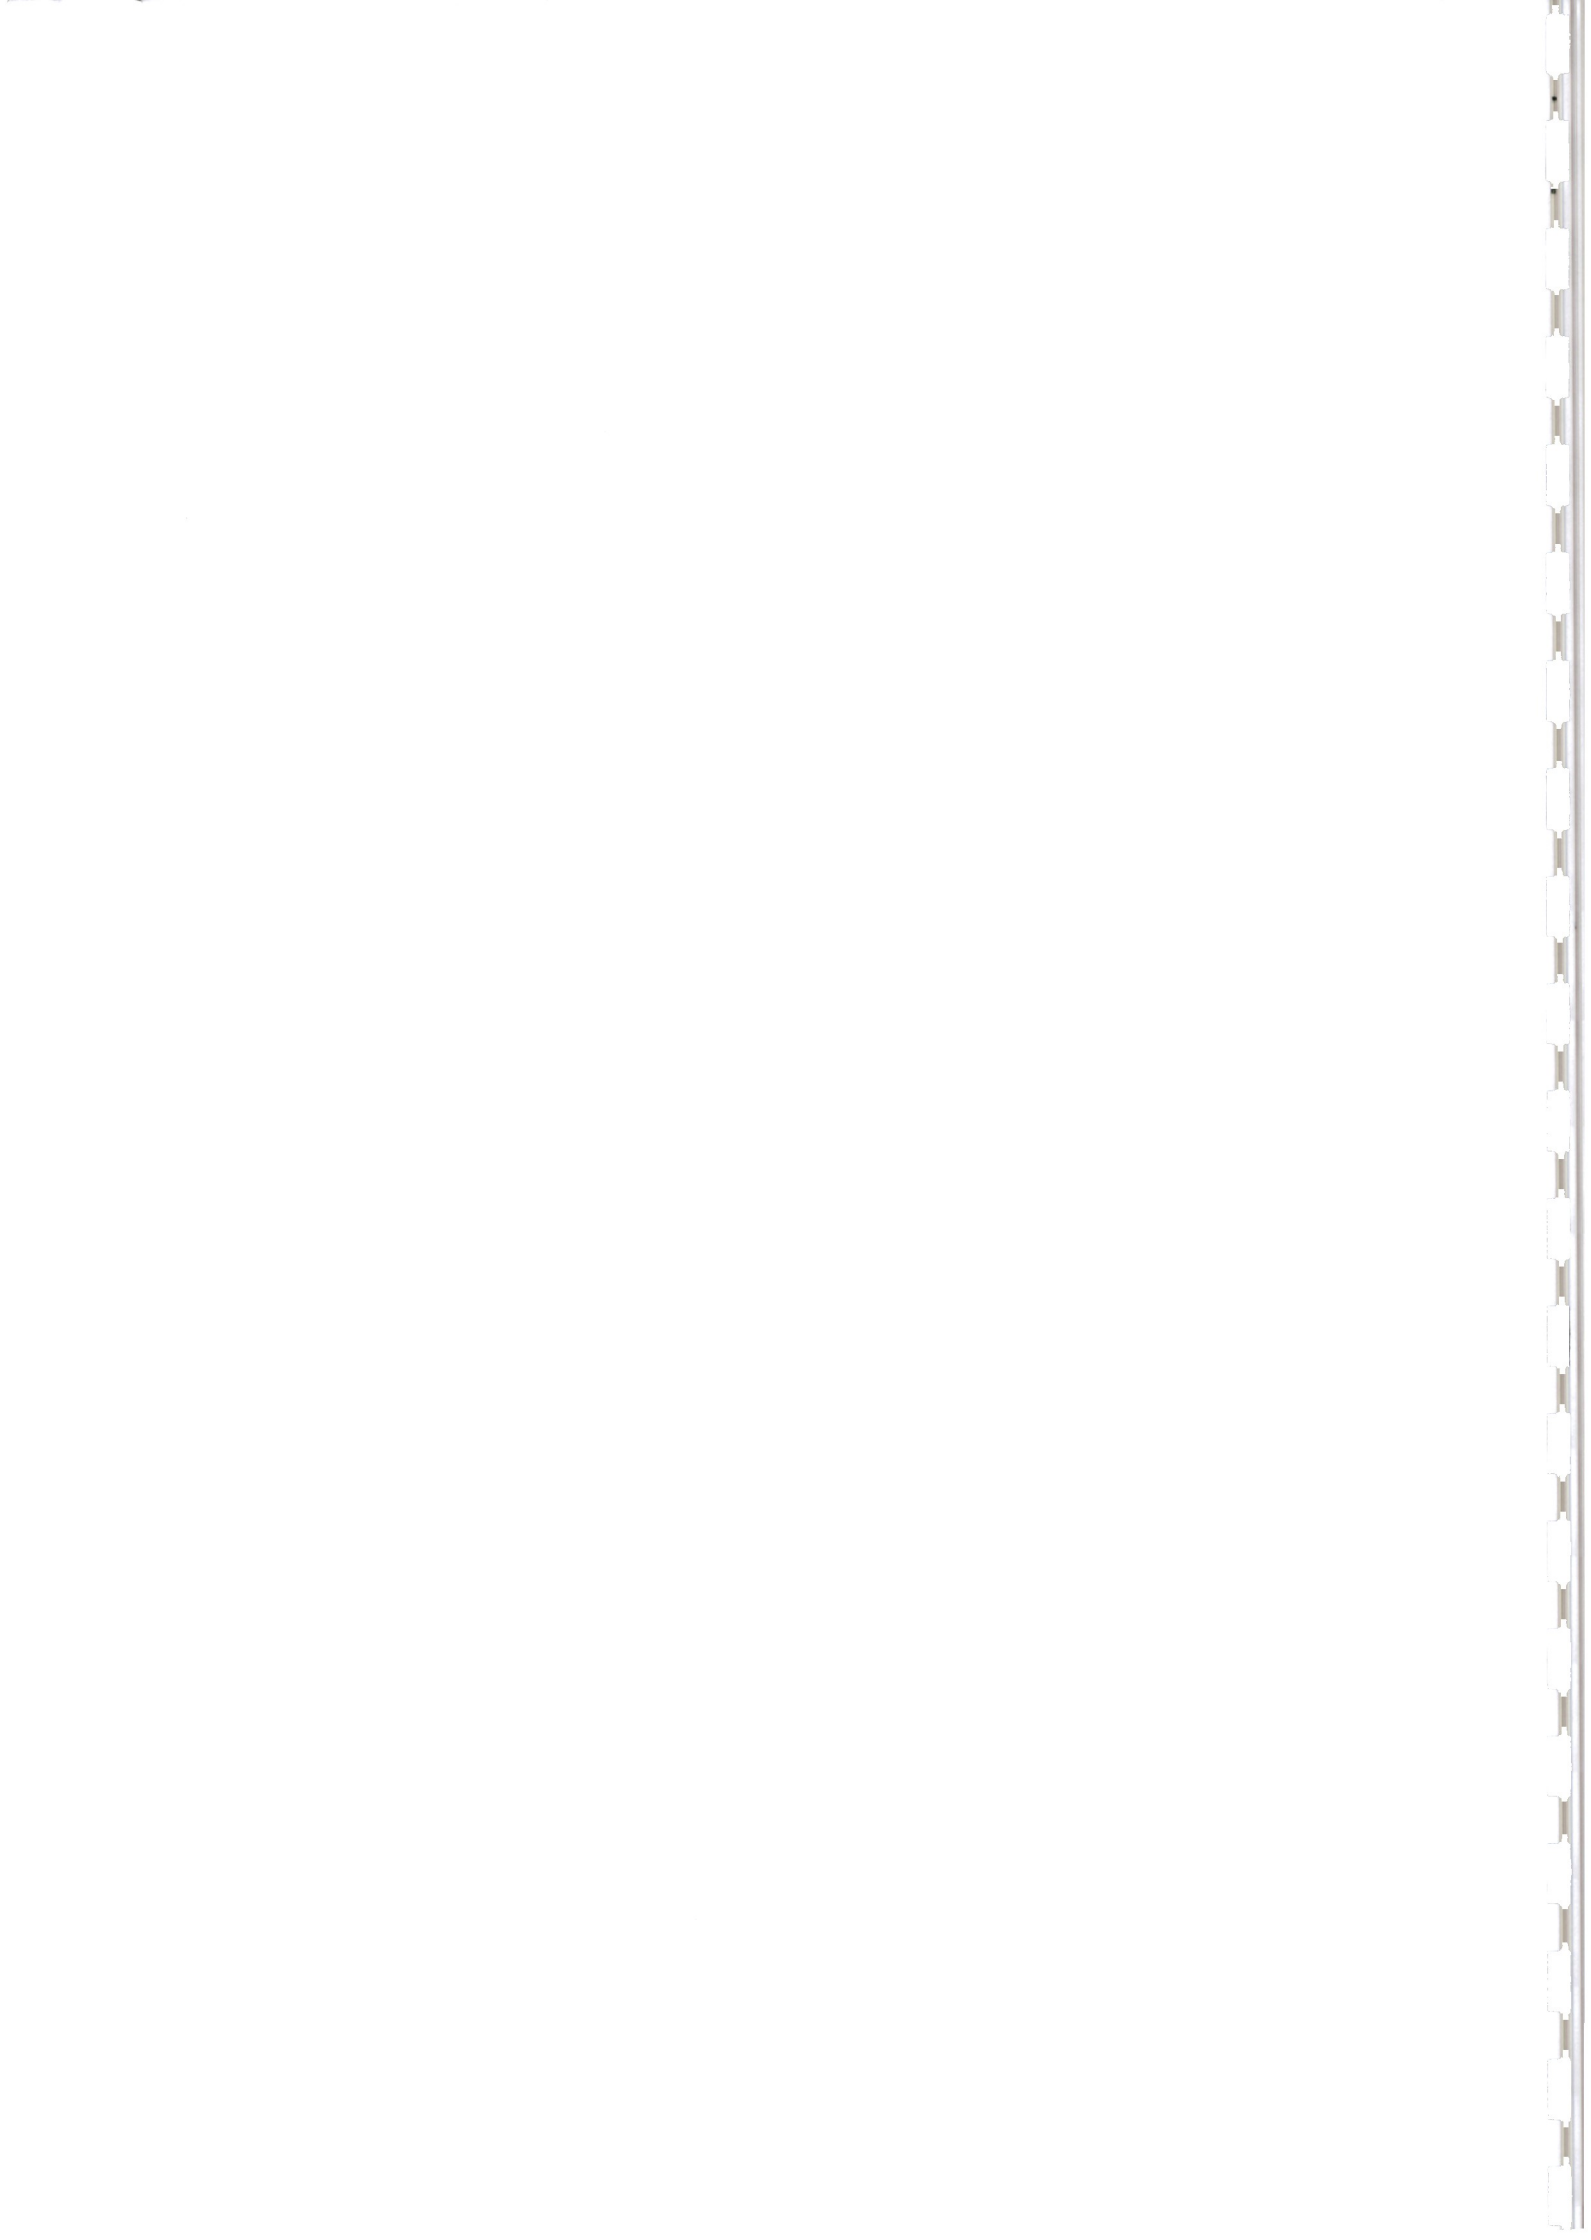

SCHEDULES

SCHEDULE A**NATIONAL GOVERNMENT SHAREHOLDING/OWNERSHIP IN AND FUNDING OF STATE CORPORATIONS AND GOVERNMENT-LINKED CORPORATIONS 2017/2018 FY**

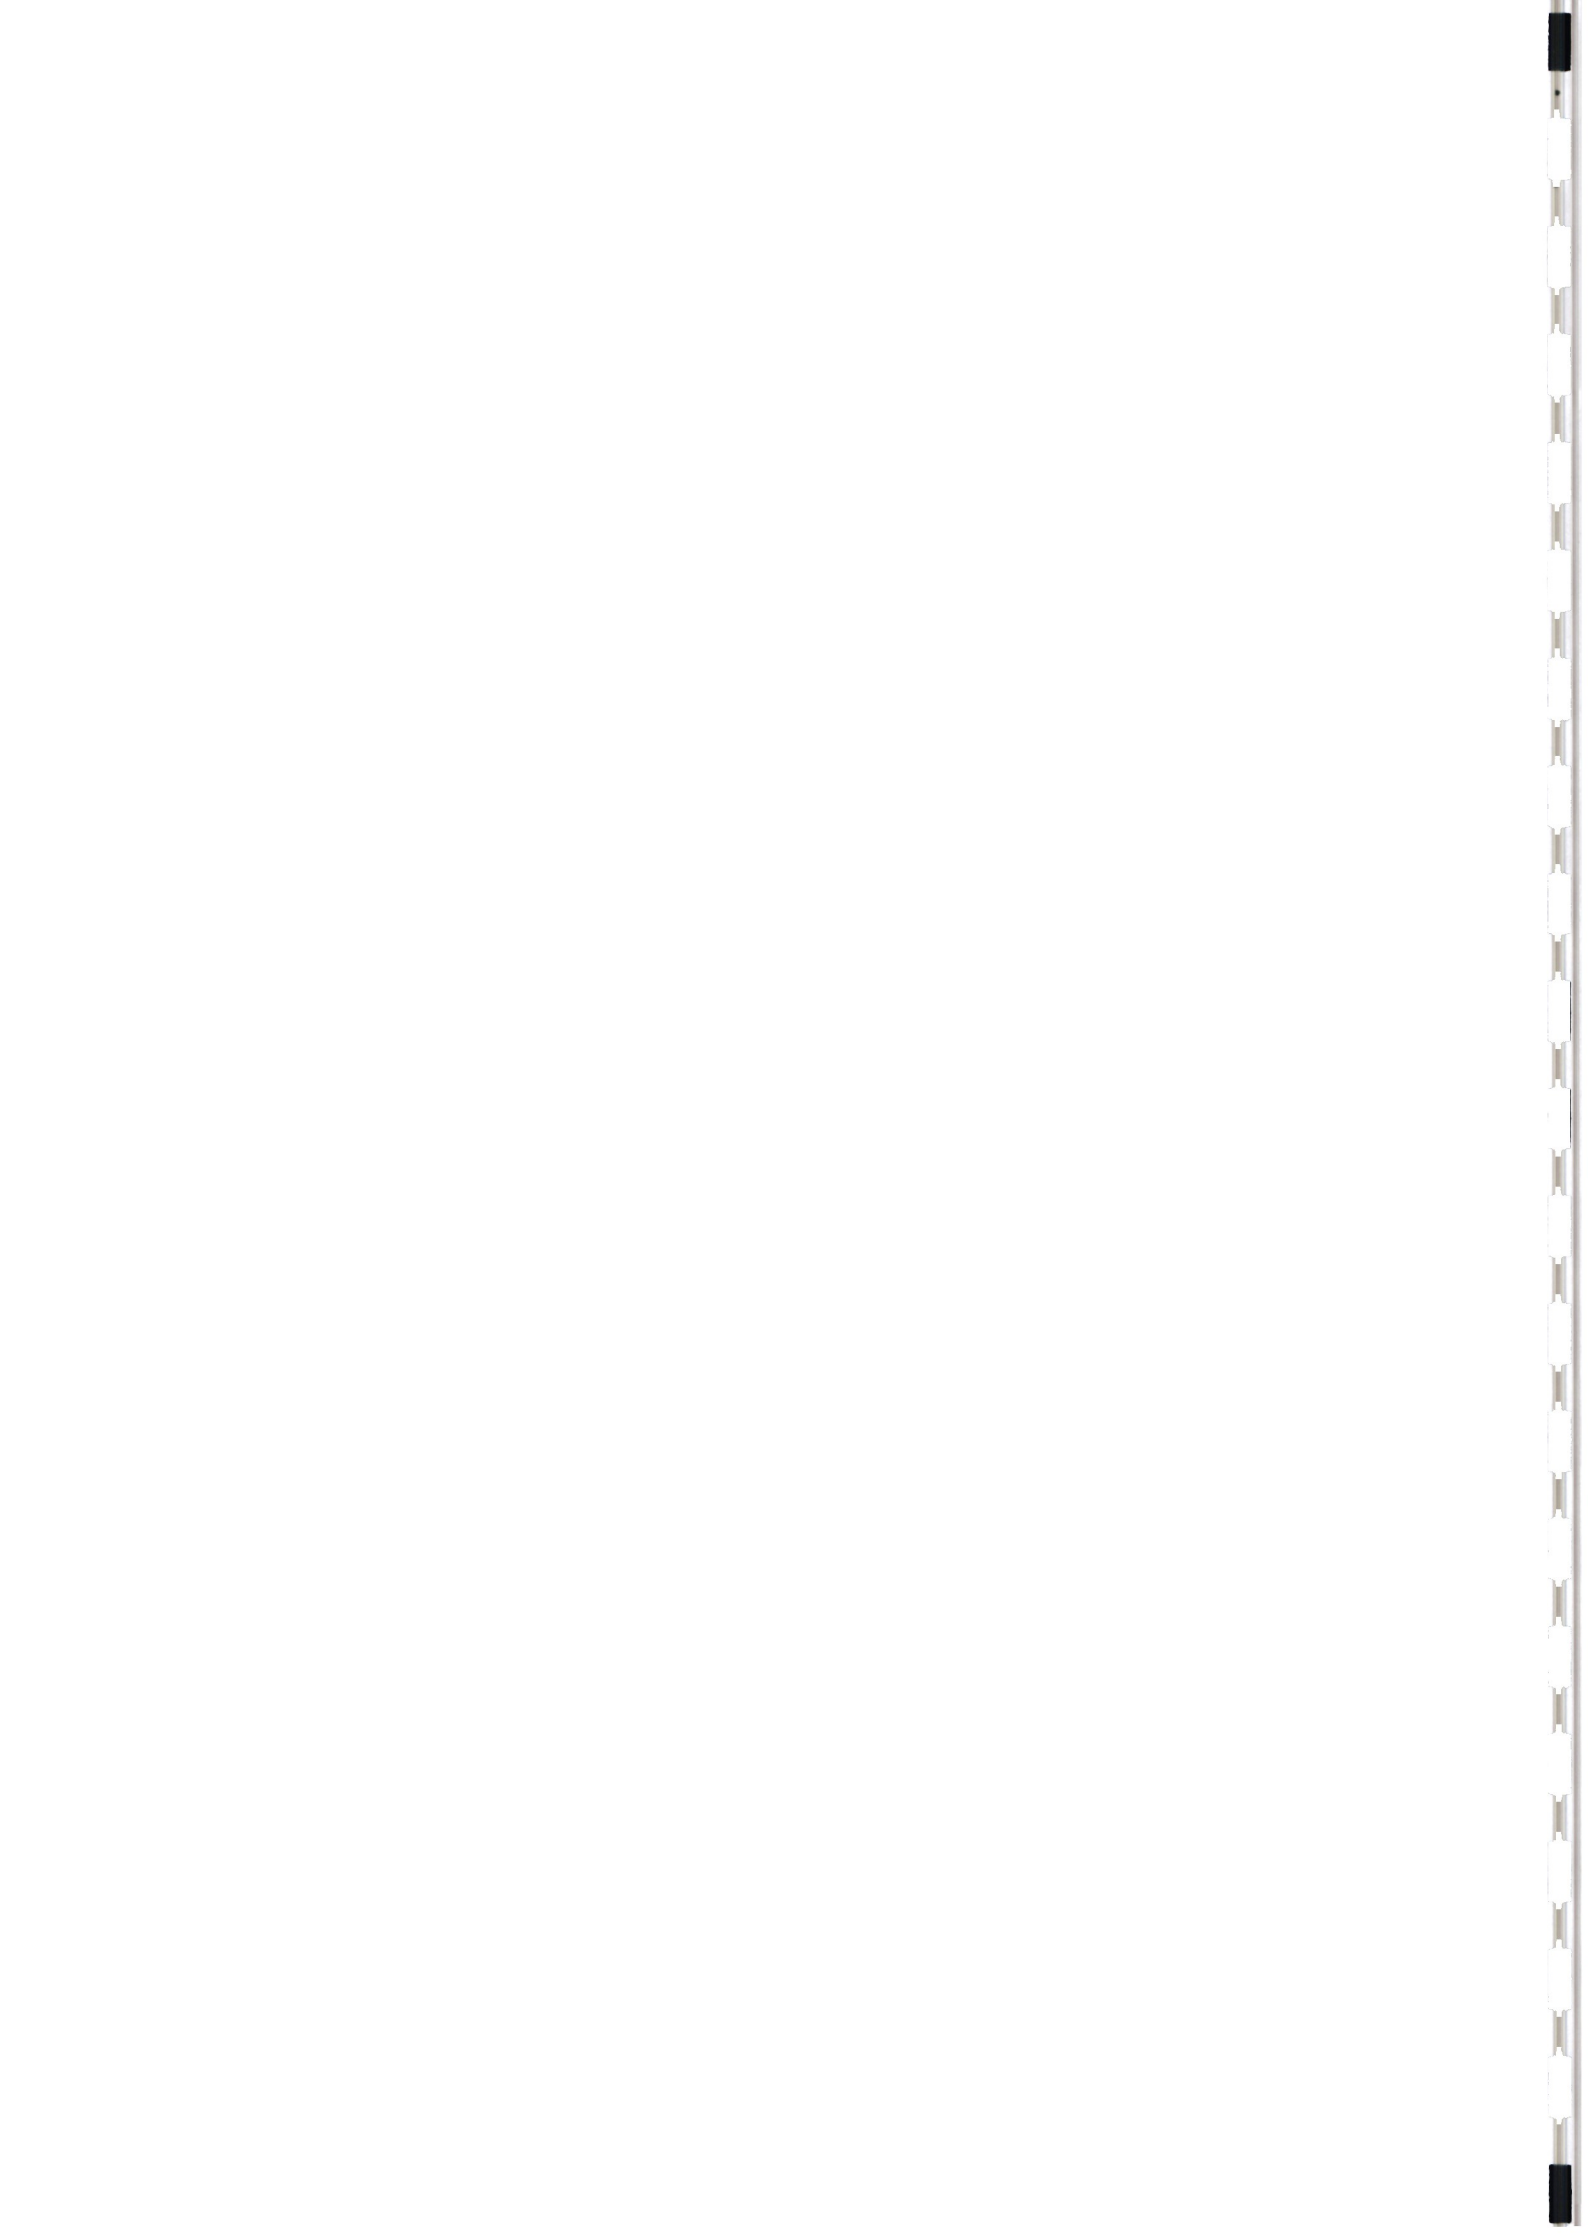

Item	Amount (Kshs. Million)
Shareholders' Funds/ Equity	2,636,299
Nominal Value of GoK Shares	34,503
Movement in Nominal Value	12,009
GoK Grants/ Subsidies	348,930
Internally Generated Funds/ Revenues	542,591
Profit/surplus	84,860
Undischarged GOK Loans	730,150
Outstanding Loans	927,752
Undischarged Guarantees	103,039
Revenue Receipts from State Corporations	20,246
Total Contingent Liabilities	403,569
Investment of Surplus Funds	351,138

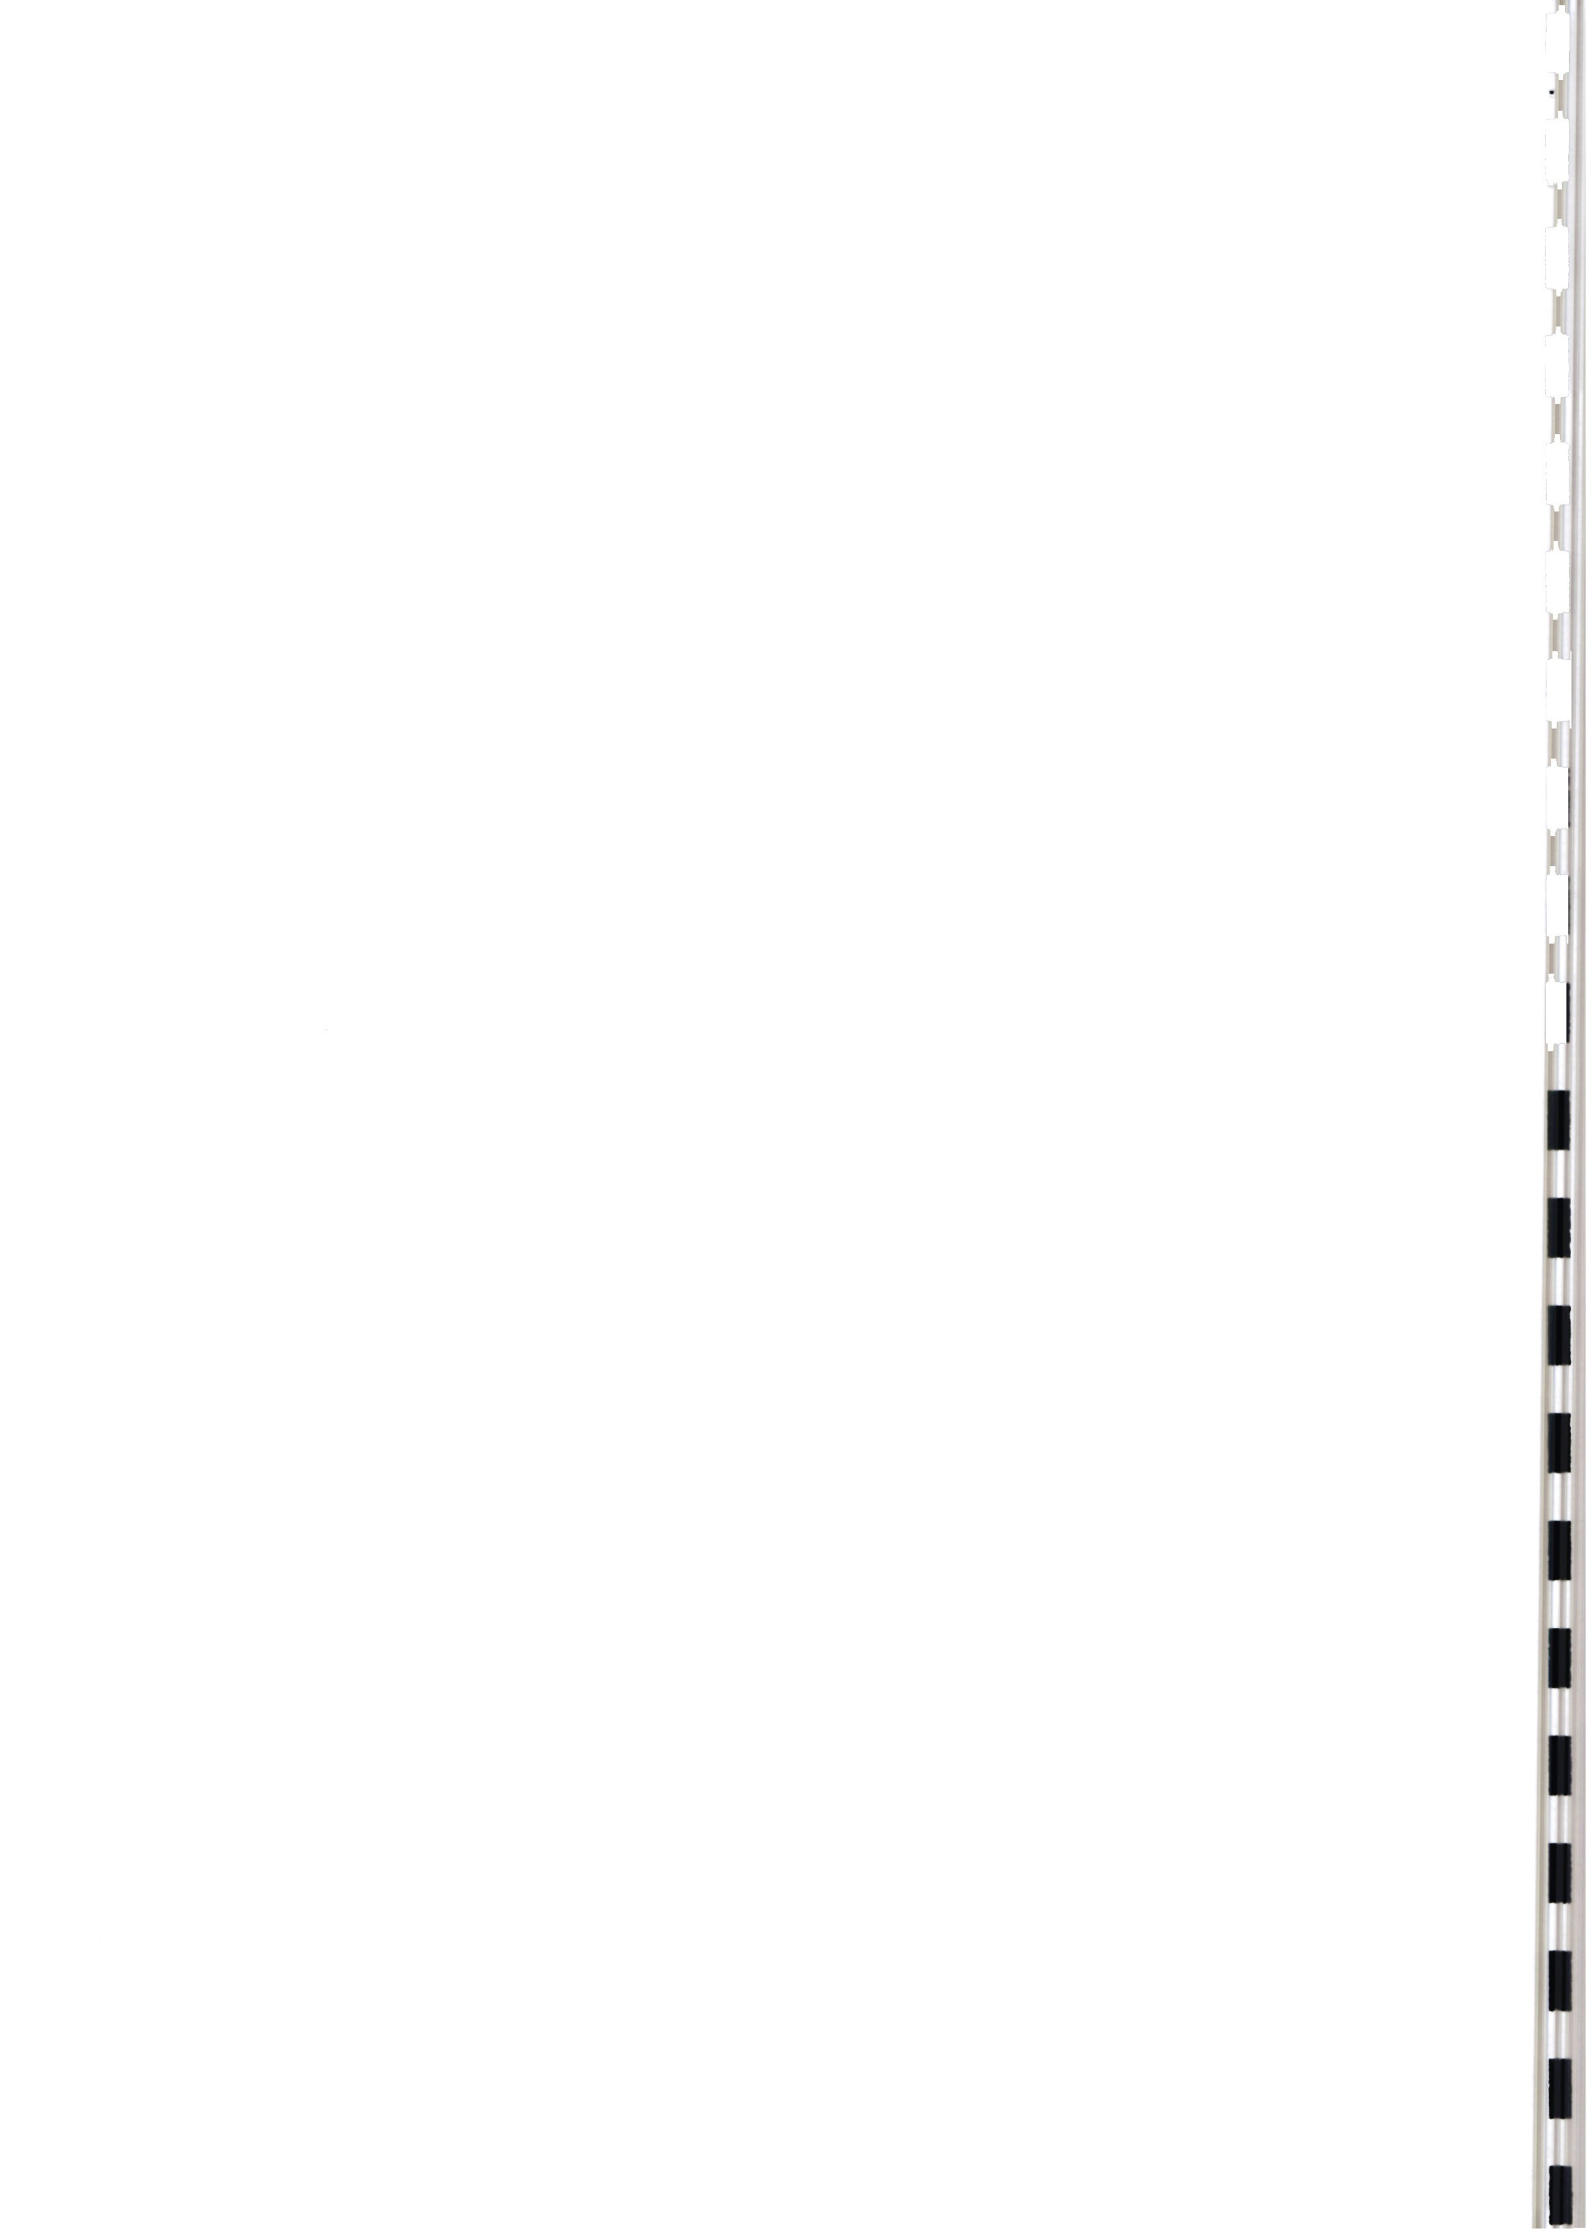

SCHEDULE B**National Government Shareholding / equity in state Corporations and Government Linked Corporations FY 2017/2018FY**

	Name of Corporation	Date of Incorporation	Establishing Instrument	Mandate / Objective	Shareholding/ Equity			Net Assets
					Nominal (Kshs.M)	% of GOK Shareholding	Movement in Shareholding (Kshs.M)	
MINISTRY OF AGRICULTURE, LIVESTOCK, FISHERIES AND IRRIGATION								
1	AGRICULTURAL DEVELOPMENT CORPORATION	1965	Agricultural Development Corporation Act (Cap 346)	To facilitate the transfer of land programme from the European settlers to locals following country's independence	-	100	-	2,502
