LAND ADJUDICATION DEPARTMENT ANNUAL REPORT, 1977

Introduction

This is the 23rd year since land consolidation/adjudication of Trust Land was started.

Land Adjudication Department continued to be under the Ministry of Lands and Settlement with the major objective of registering land owners in the Trust Land so that they may have land certificates guaranteed by the State. There are three districts, Baringo, Taita and Meru, where land consolidation work is being carried out in some sub-locations even though straight adjudication work is carried out in most of the adjudication sections in these districts.

As at 31st December, 1977, 1,031,370 parcels of arable land comprising of 4,940,707 hectares and 23,873 persons comprising an area of 1,663,796 hectares has been registered and land owners in these areas have either acquired land certificates for the purpose of securing loans for the economic development of their land or have turned their land as security to secure loans for other developments. *See* Appendices IA, I and K. No new district was opened, and no district was closed during the year.

Public attitude towards land adjudication and registration work was quite good. This enabled our staff to work without reported incident like it used to be in the past. This has helped the department to overcome setbacks which used to affect the work previously. Scarcity of water for our field staff was another serious problem in some districts, and this field staff had to drive a long distance to fetch water and in some places they had to buy water.

Details of Areas of Operations

The department has been operating in the following districts during the year:—

WESTERN PROVINCE
