3 Interpretation "milk" means milk from a cow,	s 3 Insert the words "goat or camel whether in liquid, solid or any other form" immediately after the word "cow" appearing in the definition of "milk"	We unanimously support this inclusion as it will improve on the quality of milk consumed in the country including previously excluded sectors

"producer" means a person who produces, processes, manufactures, prepares or treats dairy produce for sale,	Insert the word "imports" immediately after the word "manufactures" appearing in the definition of "producer"	Support the recommendation in so far as it does not contradict any signed treaties by the Government such as COMESA, EAC Freaties		
		In the event that such contradiction occurs, it would have a punitive impact on processors who wish to export to those countries due to counter measures likely to be imposed

20. General provisions with regard to regulations  Regulations made under this Act may provide for—  (a) their application to any specified area, or class of persons, or type or description of dairy produce;  (b) empowering such authorities or persons as may be specified in the regulations to make orders or issue directions for any of the purposes for which regulations are authorised by this Act to be made;  (c) imposing a fine or imprisonment or both for the breach of any such regulation, order or direction but so that the fine shall not exceed ten thousand shillings and the period of imprisonment shall not exceed one year;  (d) the particulars, information, proof or evidence to be furnished as to any question or matter arising under this Act or such regulations;	s.20 Insert the following new paragraphs immediately after paragraph (e)— "(f) punishment for a fine not exceeding three million shillings or a term of imprisonment not exceeding three years or both."	Contradicts with the current Section 20(c) which prescribes a fine not exceeding ten thousand shillings and a period of imprisonment not exceeding one year.  Reconcile the two conflicting sections.  Define what breaches will lead to imprisonment to avoid misuse of the act.		

(c) imposing on any person accused of an offence under this Act or regulations the burden of proving particular facts, but not so as to impose on an accused person the general burden of proving his innocence				
	New Insert the following new section immediately after section 23—  Dairy regulatory levy 23A (1) There shall be payable to the Board by every producer a dairy regulatory levy at the rate of one per centum of ex-factory price per kilogram of marketed processed milk and milk products	We oppose any new levies to be charged on dairy products for the following reasons -  1 Only 20% of milk produced in Kenya is sold in the formal sector KPDA, in line with the government policy to improve on the manufacturing sector, (Big Four) is committed to reduce the price of processed milk to the consumer and hence increase milk consumption in Kenya as recommended by the World Health Organization	Insert the following new subsection 23A (1A) immediately after section 23A(1) –  23A(1) –  23A(1A) the levy shall be shared between the Board and County Governments on a ratio of 40% 60% respectively. The amount due to County Governments shared on prorata basis based on production	
		Double taxation particularly on processors who are based in all the counties  Different rates may be imposed by different county governments hence increasing the cost of doing business in Kenya which will ultimately make Kenyan milk uncompetitive	Regulation Regulation of daily products is done by both County and national government with big chuck of activities happening at the County Level happens Thus the Counties of the opinion the sharing formulae takes account of the functional mandate of both level to develop the dairy industry	
	(2) Despite subsection (1), a county government may, pursuant to Article 209(3) (c), impose a cess, payable to the county government on any milk or milk product	Further consultation on this matter with dairy stake holders  Status quo to remain		

	produced within the				1
	county.				
31. "Primary producer" defined  In this Part, "primary producer" means a person who produces milk for sale, but does not include persons employed by him for that purpose.	s.31 Insert the words "or an import" immediately after the word "produces" appearing in the definition of "primary producer".	We welcome this amendments as it protects the Kenyan dairy industry.	"or import"		
After the appropriate period of one month referred to in section 32 has elapsed, a primary producer to whom this Part applies who carries on business as such without being registered in accordance with this Part, or who wilfully neglects to supply the particulars prescribed by that section, or who knowingly or recklessly supplies any such particulars which are materially false, shall be guilty of an offence and liable to a fine not exceeding two thousand shillings.	s.33 Delete the expression "two thousand shillings" and substitute therefor the expression "one million shillings or imprisonment for a term not exceeding one year or to both"	We welcome the amendment.
